## TO SUMMER VISITORS.

ALL who are in search of health and recreation are cordially invited to come to Dahlonega. With an altitude of 2,237 feet makes it one of the most healthy and delightful places in the south. So if you wish to enjoy a pure fresh mountain breeze and be comfortable during the summer months come. Good board can be obtained at private houses for \$15 per month, and at hotels from \$20 to \$25. Stage fare from Gainesville, 25 miles, \$1.50.

### Question in Arithmetic.

A few problems for grown-up people on matters that arise in everyday life, pronounced by the Ohio State Journal:

If a man tries to carry two potted plants from the cellar to his front yard for his wife and one falls and breaks, what commandment does the man also break?

If the patron of a restaurant has to wait three-quarters of an hour for a pork chop?

A. and B. are good friends, who live next door to each other. A. bought his daughter a piano for \$500. How much would B. give if some one would steal the piano: also how long will A. and B. remain on speaking terms?

A man died leaving a will. How many lawyers will be required to break the will and how long will it be before the lawyers own the estate of the deceased?

A doctor calls on his patient three times a day. How long will the patient live and how much will the doctor make before he dies?

How long can a half-horse power man run a four-horse power lawn mower?

Mary has three apples and Johnnie has seven, if Mary eats all of her green apples, and Johnnie eats all of his green apples, at what hour will the funerals occur?

### Please Stop My—What?

Times are hard, money scarce, business dull, retrenchment is a duty. "Please stop—Whiskey?" "Oh no times are not hard enough for that yet. But there is something that costs me a large amount of money every year which I wish to save. Please stop my—" Ribbons, jewels, ornaments and trinkets? "Not at all. Pride must be fostered if times are ever so hard. But I believe I can see a way to effect quite a saving in another direction. Please stop my—" Tea, coffee and other unhealthy luxuries? No, no; not these. I cannot think of such a sacrifice. I must think of something else. Ah! I have it now. My weekly paper costs me 2 cents a week, \$1 a year; I must save that. Please stop my—paper. That will carry me through easily. I believe in retrenchment and economy."

It is right hard for the nerves of woman to keep cool. What a sufferer and an insufferable nuisance is she whose are unstrung and whose teeth get on edge on hearing certain noises or touching certain things. I knew one woman who has fits, so to speak if some one at the table scratches a knife on a plate, if some beats a tattoo on the table, if some one eats a peach with the fur on. The best thing she can do for herself is to get three friends to help her for one day. Put one to scraping a knife on a plate, another to eating peaches without peeling, another to beating a tattoo, while she herself chews sand! —Griffin News.

At a big fire in Cincinnati the other night one of the firemen threatened the hose on a young woman who was getting in the way. She replied: "I'll turn myself when I get home. I was so excited I didn't notice how I was putting them on."

### An Atchison Lynching.

Here is a story of lynching in the early days of Atchison: A man named Sterling was hanged first. He was a vicious fellow and did not flinch. Indeed, while the rope was around his neck he announced that he was the best man in Kansas. Sandy Corbin, one of the lynching party, was something of a fighter himself and did not like Sterlings talk. "Men," he said to the lynchers, "if we will postpone proceedings ten minutes I will take the conceit out of this scoundrel." The committee thought it would not be proper to let Sandy whip Sterling before hanging him, and lynching went on, although Sandy grumbled loud and long because Sterlings bluff was not called.—Atchison Globe.

### Wisdom in Farming.

Col. J. B. Killbrew in Southern Farm Magazine of Baltimore for June says:

The farmers of the South hayed at that stage in their agricultural progress when the system practised for more than 100 years of clearing new land and turning out old must be abandoned and a more rational system adopted. To wear out land and then abandon it is a barbarism—a practice, indeed, unfit to be tolerated by an enlightened people. The earth butchery of the past must be stoned for by the earth-nursery of the present. The cruel stabs given to mother earth should be bound up and her wounds healed and her health restored, and then she will be grateful for the consideration and care she has received, and will pour out to her cherishing children the richest bounties of her exuberant bosom.

A New York sharper went into a bakery, the other day and ordered 200 French rolls. He then went across the street to a clothing store and purchased a suit of clothes worth fifty dollars, asking the dealer to trust him for the amount. This the dealer refused to do. Then said he, "Do you know the baker across the streets?" "Yes," said the dealer. "Will you take him for the debt?" "Yes," replied the other. He then asked the clothing man to walk across the street to the baker's with him on their arrival to sharper called out to the baker: "Have you got those two hundred for me?" "No," said the baker, "but I will have in one hour." "Then hand to this man," said the sharper. Both men walked back across the street. The sharper took the suit of clothes and left the dealer was well satisfied with the sale until the baker delivered him fifty French rolls.

At a big fire in Cincinnati the other night one of the firemen threatened the hose on a young woman who was getting in the way. She replied: "I'll turn myself when I get home. I was so excited I didn't notice how I was putting them on."

### Lincoln's Hay Crop.

A story of Abraham Lincoln would have to be older below to lose its characteristic savor, says the Philadelphia Times.

In the summer of 1857 Mr. Lincoln was sitting in his office when he was visited by one of his neighbors, an excellent farmer, but one incensed the size of his crops even after harvesting. He had given, on this particular morning, a skillfully account of the hay he had put in.

"I've been cutting hay, too," remarked Mr. Lincoln.

"Why, Abe, are you farming?"

"Yes."

"What you raise?"

"Just hay."

"Good crop this year?"

"Excellent."

"Well, I don't know just how many tons, Simpson, but my men stacked all they could out doors, and then stored the rest in the barn."

Yes, Indeed.

The uniform school book system would be a great help to the town and county. There ought to be some method whereby the same text books could be used in the towns and counties. This would save much annoyance and expense, and besides be a means of higher education among the children. A uniform text book system is the best way to solve the school book question.—Dalton Argus.

### The Dignity of Labor.

When you see a youth who will seek work, no matter how menial it may be rather than be idle, you can make up your mind that he amounts to something. The young man who would starve rather than do anything beneath what he conceives his dignity is not made of the right kind of stuff to cut much figure in life. All honest toil is honorable. There is nothing so morally degrading as aversion to labor which is a combination of laziness and bad conduct.—Times-Recorder.

Mr. John L. Reed went up to Tate and Ball Ground last week, and he says crops are burned up, and rain now would not do any good. At Canton Mr. B. F. Crisler exhibited to him a nugget of gold taken from one of the mines near there, containing 109 pennyweights of pure gold, worth \$104.45. There is a good deal of interest being taken in gold mining in that section at this time.—Marietta Journal.

A thrifty Kentucky woman placed some eggs in bed with her husband who lay ill of fever and hatched out a fine brood of chickens. There is one woman who will never need a man to scratch for her.

We are glad to see that editor Bell of the Wiregrass Blade was nominated for the legislature last week. He is a wide awake up to date man and will make Emanuel county a good representative.

# THE NUGGET

DAHLONEGA, AUGUST 7, 1902.

Entered at the Dahlonega, Ga., P. O.  
as Second Class Matter.

Official Organ of both City and  
County.

FOR GOVERNOR,  
**HON. J. M. TERRELL,**  
OF  
MERIWETHER COUNTY.

There is a talk of another new  
political party being organized.

The estimated gold coin of Uncle  
Sam is a billion and a quarter  
dollars.

A man died in San Francisco,  
Cal., last week at the ripe old age  
of 130.

Last Monday 700 negroes on a  
steamer from Savannah all got  
drunk causing lively times.

It is the opinion of Gov. Can-  
der now that the State tax rate  
will be about the same as last  
year.

The miners strike in Pennsylva-  
nia has continued for near three  
months with no chance of a set-  
tlement in sight.

Lightning struck an umbrella  
in Birmingham Ala., last Sunday,  
and severely injured the girl and  
boy walking under it.

At Pottsville, Cal., this week,  
James McKinney, an ex-convict,  
shot five men and escaped into  
the country in a stolen rig.

J. W. Cox, of Atlanta, is under  
arrest for throwing a pot of hot  
coffee in his wife's face. Coffee  
costs too high handled this way.

On the night of the 28th the  
people of California, Nebraska,  
Iowa and Dakotas were thrown into  
a panic by an earthquake, doing  
considerable damage at some places.

There are now three parties fish-  
ing for the mayors office in Atlan-  
ta to-wit: Capt. E. P. Howell,  
Mayor proton Johnson and alder-  
man James G. Woodward, which  
will cause "hot times in the  
old town to-night."

Rev. Dr. Jordan has got it down  
about right. In a sermon last  
Sunday at Savannah he said  
that the convict system is a dis-  
grace to Georgia, the state should  
employ them on its public works  
and not lease them.

Jeffcoat, who recently killed the  
deputy sheriff of Emanuel county,  
has since killed Ah Perry, near  
Perry, S. C. This makes his third  
man, and a reward of \$900 is of-  
fered for his arrest. He went by  
the name of Johnson in Emanuel.

We understand that Rucker of  
Atlanta, and other non resident  
republicans are going to help those  
of this county raise a cam-  
paign fund to so called  
independent democrats of Lump-  
kin county forward to see if they  
can't get them into office.

At Pittsburgh, Pa., during a  
storm, last Monday, lightning  
struck 25 times causing three  
deaths and much loss of property,  
including a Presbyterian church  
steeple. And on the same day in  
New York lightning struck in  
many places, killing one man.

John Wise, a negro who committed an assault on Mrs. John Smith on the 23rd ult., in Bryan county, was lynched and shot by nine men. He was afterwards found alive when he was hung up to a telegraph pole and more than a thousand bullets were shot into his body. More work for that congressional investigating committee.

In Michigan last Sunday the worst storm ever known in the history of Oxford swept over a territory of country reaching from St. Thomas to Rochester, a distance of eighteen miles. The corn crop is leveled, while wheat and oats are lying in a tangled mass. Orchards are stripped of their fruit and the losses to farmers will amount to thousands of dollars.

A telephone line is to be built from Cleveland Ga., to Blairsville.

News comes from New York that a post board trust has been formed.

The cholera has appeared in Ca-  
rio, Egypt and natives are falling  
dead at their work.

The child labor bill will come up  
again at the next session of the  
Georgia legislature.

Biggers, of Atlanta who killed  
H. I. Sterne, a mail carrier, was  
acquitted last week.

All Texas was visited by abun-  
dance of rain last week greatly  
aiding the growth of cotton.

Frank Williams, of Augusta,  
died one night last week from the  
effect of excessive cigarette smok-  
ing.

Dawson Superior Court has been  
postponed from the 1st Mon-  
day till the 2nd Monday in August.

Editor Thomas of the Dawson-  
ville Advertiser sends us word  
that he is a candidate for the  
house and not for the senate.

Miller Carter, who was sent up  
from Muscogee county for fifteen  
years for robbery was pardoned by  
Gov. Candler last week.

Our contemporary, the Signal,  
has been in the habit of declaring  
itself for a candidate after he is  
elected, and we guess it will do the  
same this time from present indica-  
tions.

A law was passed just before  
congress adjourned allowing United  
States soldiers in the Civil War  
who had first served in the Con-  
federate army to draw pensions.  
All these rejected cases may now  
be opened. It means \$3,000,000 to  
our Southern soldiers.

Millions of grass devouring  
caterpillars or "army worms" are  
destroying the hay crop two  
miles from Macon on the Huston  
road. The ravaging column covers  
a track a half mile wide. Their  
course is eastward, and everything  
in the form of grass is devoured  
on their line of march.

A recent report shows a decided  
decrease in illicit distilling in  
Georgia. The number of illicit  
distilleries destroyed during  
1902 ending June 30, 631. Amount  
of liquor seized 6804 gallons. Dur-  
ing the year ending June 30, 1901,  
724 stills were destroyed, and the  
amount of whiskey seized was  
8,904 gallons, a difference of 2,223  
gallons.

Two cars of Georgia peaches  
were shipped to London, England  
from Fort Valley last week.  
They were shipped by Col. J. H.  
Hale, President of the Hale Georgia  
Orchard company. Col. Hale  
is one of the largest fruit growers  
in the world. Besides his immense  
orchard acreage in Georgia he has  
thousands of bearing trees near  
South Glastonbury, Conn., his  
home.

There are \$60,000,000, of claims  
against the United States pending  
before the Spanish court of claims  
in Washington. Originally against  
Spain, because of the acts Cuban  
revolutionist. These claims were  
voluntary assumed by the United  
States that Cuba might be free. It  
is made plain through the fact the  
majority of the claimants are Cubans  
that the United States has done  
even more for the people of that  
island than is generally supposed.—Macon Telegraph.

Willis Ponder and H. G. Min-  
ter having charge of a convict  
camp in Early county, will be  
tried for murder. In May 1902  
a negro named Fred Kent, was  
killed by the "sweating" process  
under the direction of these  
men. The poor negro was placed  
near a hot stove and fifteen blan-  
kets put on him where he was  
made to remain three hours, and  
the following night died, and the  
cause of his death was kept a secret  
until told by an ex-convict at Savannah.  
Later—Ponder has been bound  
over charged with murder and Dr.  
Minter released.

In Michigan last Sunday the worst storm ever known in the history of Oxford swept over a territory of country reaching from St. Thomas to Rochester, a distance of eighteen miles. The corn crop is leveled, while wheat and oats are lying in a tangled mass. Orchards are stripped of their fruit and the losses to farmers will amount to thousands of dollars.

The indications are now that the  
republicans will have a state meet-  
ing and no ticket.

Senator D. B. Hill says that  
there is no need of reorganizing  
the democratic party, but should  
unite the timely issues.

A settler dog valued at \$100 is  
now in the Atlanta jail to be held  
until the ownership is settled by  
claimants.

In Kentucky the other day a  
man stole a drama from a boy,  
stabbed in a square and a death.  
It is best to be honest.

The city of Macon has received  
a check from Uncle Sam for \$5,000  
for damage done her park by sol-  
diers during the Spanish-American  
war.

In Atlanta W. C. McLane, the  
embezzler, was sentenced to pay  
a fine of \$500 or serve two and  
a half months in jail. The total short-  
age was \$9,000 which leaves Mc-  
Lane a very good profit.

The Georgia ginnings will meet  
in Macon Aug 7th. Those wish-  
ing to attend will only have to  
pay one fare for the round trip,  
and the cost of the tickets to begin Aug-  
ust 6th and good until August 9th.

Mr. John Hutcheson came up  
from Aurora last week to give us  
an order for some lumber tickets  
and the report got out at once that  
he was going to run on the inde-  
pendent ticket for sheriff. We be-  
lieve Mr. Hutcheson to be too  
wise for that.

Mr. John Smith of Bryan county  
was assaulted last week at her  
home near Penrose by a negro  
named John Wise. She was choctaw-  
ed into unconsciousness and then  
brought to a swamp by the  
brute. He returned to his work  
the next morning but afterwards  
fled.

An effort is being made in  
Dublin, Ga., to secure the as-  
sistant postmaster for a negro  
which is causing "trouble in the  
camps" down that way. There are  
plenty of good white honest  
republicans competent to fill all of  
these positions. Such actions as this  
discredit the republican party more  
than good.

On Friday night at Ringside,  
San Francisco, California, after  
eight rounds Robert Fitzsimmons  
forfeited his last claim upon  
the heavy weight championship.  
He was knocked to the floor by  
James Jeffries and counted out  
after he had so badly punished the  
champion that it was a foregone  
conclusion among the spectators  
that the Cornishman must win.  
While bleeding from a number of  
gashes in the face Jeffries got in  
two punches and won the fight.

Every newspaper treasures up  
in its memory the name of its  
friends, and, likewise enemies. It  
seldom overlooks an opportunity  
to assist the former, but it never  
goes out of the way to help the  
latter. Human nature is pretty  
near alike everywhere. People  
who show the newspaper man  
kindness never make a better in-  
vestment, or one that will surely  
pay a hundred fold sooner or later.  
It has been truly said there comes  
a time in the life of man when he  
needs it badly.—Tifton Gazette.

It will be seen by an official no-  
tice elsewhere that the republicans  
of this county will have a mass  
meeting here on the 9th. At this  
meeting the doors will be opened  
and the right hand of fellowship  
extended to all sore headed democ-  
rats, and hungry office seekers,  
called independents, who have not  
been true enough to their party  
to be willing to ask its support,  
and are willing to place themselves  
in the hands of the republicans  
and be used as political tools. How  
many and who are willing to do this  
can be ascertained later on.

This reminds us of the deserters  
during the civil war, who turned  
their backs to their homes, friends,  
wives and children and went across  
the line and fought against their  
native country. We ask again,  
who is it that is going to desert his  
party and join one that favors  
keeping negroes in office in prefer-  
ence to white men?

At Jackson, Miss., the other day  
a lady presented her husband with  
two pairs of twins. Do you think  
this household has been made  
happy?

According to a decision of the  
United States of appeals recently  
decided in Omaha, if an accident  
befalls a customer while intoxicated  
the saloon is responsible. What  
about these Peruna sellers?

The white republicans of Lump-  
kin county are requested to meet  
at the court house on Saturday  
August the 9th, at 10 o'clock a.m., in  
a mass meeting to transact such  
business as may come before them.  
B. F. Anderson, Chairman.

The New York Commercial sug-  
gests that "really, the only thing  
for Grover Cleveland to do in order  
to get even is to start a dollar  
a year weekly at Princeton. He  
might name it The Quality or The  
Uncommoner."

Among the delegates named by  
Gov. Candler to attend the Interna-  
tional Mining Congress are Hon.  
W. H. Courtney, Hon. R. R. As-  
bury, Mr. John Martin, of White  
county; Mr. H. R. Jaquish, of  
Gainesville, and Capt. H. D. Ing-  
soll, of Dahlonega. The entire  
list of delegates for the state is  
29.

Last year there were no yellow  
jackets but this season there seems  
to be an "over production" judg-  
ing from what Charlie Dotson  
says. He understood to sow a  
certain piece of ground in grain  
and had to abandon it on account  
of the jackets. In other words he  
had to quit the patch and that too  
in a hurry.

Last Sunday was meeting day  
at the colored Baptist church at  
this place. Several parties on hand  
seemed to be pretty full of  
mountain dew during the eleven  
o'clock sermon but no disturbance  
occurred of any kind. It is said  
that one negro went into the  
church with a big quart bottle  
showing in his pocket, holding his  
coat out like a ladies up to date  
spring bustle, and one preacher's  
breath was so well perfumed with  
the liquor that minister Coffey got  
a scent of the stuff, causing him to  
give all whiskey drinkers a general  
raking.

Well the meeting at the Dahlonega  
camp ground begins next Tues-  
day afternoon and if there is no  
change it will be as heretofore, the  
punishment to the stock driven to  
and from by money lovers will  
over balance the religion. But little  
good is accomplished now days at  
camp grounds. Too many go to  
see and be seen and if the preachers  
are not paid well they will  
come up missing. Last year far-  
mers residing near by had their  
melons destroyed during the meet-  
ing. Some of you may think that  
we speak too plain but point out  
the person who believed they got  
religion at that camp ground that  
have lived up to the rules of the  
church.

Only 50 Cents  
to make your baby strong and well.  
A fifty cent bottle of  
**Scott's Emulsion**  
will change a sickly baby to  
a plump, romping child.  
Only one cent a day think of it.  
It is as nice as cream.  
Send a sample and try it.  
SCOTT'S POWELL, Chemist,  
409-412 Pearl Street, New York.  
It is all good drugs.

City Tax Notice.

This is to give notice that the  
tax book for the collection of city  
taxes for the present year is now open  
ready to receive the money.

J. E. GREGORY,  
City Treasurer.

City Tax Assessment 1902.

At a meeting of the city council  
held July 11th, 1902, the following tax-  
es were levied for the support of the  
city of Dahlonega, Ga., for the year  
1902: Sixty cents on each \$100, assessed  
value.

For support of city public schools  
\$100,000, assessed value.

For marshal, \$12 cents on  
each \$100, assessed value.

For general expenses of said city 7  
cents on each \$100, assessed value.

Making a total of 65 cents on each  
\$100, assessed value of property in said  
city. Done by order of council.

This 14th July, 1902.

W. M. WORLEY,  
City Clerk.

Georgia, Lumpkin County.

To all whom it may concern:

I, Henry L. Dyre, guardian for

Emerson, Negro, deceased, Thomas

Dyre and Homer Dyre, have in due

form applied to the ordinary of said

county, for leave to sell the lands be-

longing to said wards, and said ap-

plication was denied by said ordinaries

of the first Monday in August next at

his office in the court house of said

county. This the 7th day of July, 1902.

HENRY L. DYRE, Guardian.

Hall's Villa,

DAHLONEGA, Ga.

Is now in charge of J. F. Castleber-

& Son, who keep it up

to date in every respect.

Furnishing the table with the best

country affords.

GIVE US A CALL.

## CITATION.

Georgia, Lumpkin County.

Notice is hereby given that the un-  
der-signed has applied to the ordinary of

said county for leave to sell the lands be-  
longing to the estate of Rice

Arrendale, late of this county, deceased.

I will pass on said application on the

first Monday in August, next. Given

under my hand and official signature.

This the 7th day of July, 1902.

J. F. ARRENDALE, Ordinary.

Georgia, Lumpkin County.

To all whom it may concern:

I, B. F. Anderson, Administrator,

of the estate of William M. Whent,

deceased, have in due form ap-

plied to the ordinary of said county for

leave to sell the lands belonging to the

estate of said deceased, and said ap-

plication will be heard at his office

on the first Monday in August, next.

This the 7th day of July, 1902.

B. F. ANDRENDALE, Admin'r

William M. Whent, deceased.

# THE NUGGET.

DALHONEGA, AUGUST 1, 1902.

The preacher told you how it would be.

WANTED—Two good horses by B. R. Meaders & Sons.

Mr. and Mrs. Joseph Ricketts are both down sick with fever.

J. F. Moore & Cos.—bargain counter will interest you. Go and see.

The city marshal collected the taxes on three dogs last Monday by the shot gun process.

The nights are very pleasant here and it is no trouble to sleep without rocking."

We hear no talk of the rural free mail delivery in this county now and we expect to have to do without any.

We are indebted to Mr. Jasper Pierce, of Wahoo, Ga., for a nice water melon presented to this office last Monday.

The dam of the Gainesville and Dahlonega Electric Railway Co. on the Chestatee river is expected to be completed this week, which is said to be the best dam in this whole country.

Mrs. A. M. Pierce is on a visit to her relatives at Conyers, Ga., this week. She was accompanied by her husband down below Gainesville a piece where he goes to assist in some revival work in that vicinity.

Mr. J. T. Miller, of Auraria, Ga., left for San Francisco, Cal., first of the week where he goes to get the particulars of his son's recent mysterious death in that city and make arrangements to have his remains brought home.

Miss Effie Lemly, daughter of Mr. E. Lemly residing in Auraria district, died last Saturday. About two weeks previous she was taken with a severe pain in her ankle while washing and it continued on till it struck her left side and the lady expired.

W. H. Gooch of Dawson county, was acquitted here last Monday by Com. Baker on the charge of running an illicit distillery. U. S. officers Cowart and Hopkin, of Jasper, Ga., were the witnesses. They saw him at an illicit distillery but another man took the blame and said that it belonged to him.

The long drought ended in this section by a good rain on last Sunday and several since causing farmers, miners and every body else to rejoice. It is too late to do early up land corn much good but will be worth a great deal to the other and cause plenty to be made for both man and beast and we all feel thankful.

Little Mary, the five-year-old girl of Mr. W. B. Woodward expired last Monday awhile after sun up after a few days illness of whooping cough and pneumonia and her remains were interred in Mount Hope cemetery the following morning. The bereaved father has our heartfelt sympathy in the loss of this little girl.

We are reliably informed that a few days ago a man at the Cannon Gate in Chesapeake, flew mad at his little boy (George) for almost nothing and beat him so severely that the boy could hardly walk. The sticks with which he beat the boy are yet to be seen and are at least one inch in diameter. Such conduct ought, and if repeated will be investigated by the state authorities.

The revision of the jury box commences next Monday. For some cause or other the names of good upright men were left out at the last revision and parties put in who were a long ways less competent to serve as jurors. Some times revisors who are appointed by the Superior Court Judge, are left out in after years, showing that wise Judges and jury commissioners don't see alike in this matter, for certainly if a man is competent to act as a revisor he can preserve as a juror. Some times preserve exists.

Mr. Speer, son of ex-state treasurer Speer, is here for his health.

Mrs. Lilly has been down in Dawson county visiting her parents.

Mr. J. F. Moore and family paid relatives in White county a visit last week.

Quite a lot of Hall county men are finding their way to the Dahlonega market.

The increase in both municipal and state taxes this year proves that we are prospering.

Dog days commenced last Monday and as the almanac says, "we may now look for rain."

Lieut. Fred Price, after spending some weeks here with his parents left last Sunday to join his command at Canton, Ohio.

Mr. J. B. Witt, after being here a few days with his family returned to his place of business, Mc Gee Tenn., last Sunday.

While Judge Huff is out in the employment of the Briar Patch Co. Capt. W. J. Worley looks after the business of the ordinary's office.

The Gainesville and Dahlonega Electric Railway Co. gained the suit in Hall Superior Court last week first brought against it by Mr. A. S. Whelchel.

The cutting of the two new mining ditches in this county which will begin soon will give a large number of hands employment and help the country generally.

One blockader came to town last Saturday with a supply of pure mountain dew but got scared at the appearance of a whiskey reporter and left out quicker than he came.

Capt. F. M. Williams, of Two Run, Ga., Mr. M. C. Williams, of Tennessee, and Mr. L. L. Williams, of Canton, Ga., all three brothers, spent last Friday and Saturday in Dahlonega.

A portion of the Dahlonega market is being supplied with meal from Dawson county. This should cause our farmers to get up a bustle and try to produce enough to supply the demand.

We are told that there is plenty of corn in the country but we are unable to get either corn or meal in Dahlonega often. Farmers are allowed 85 cents per bushel cash which about as high we think as it will get.

Two or three idle boys have been in the habit of stealing some of our citizens chickens and carrying them off to the woods and cooking them, which will likely come to a close else they will get into trouble.

Below was the retail prices of some leading articles in Dahlonega this week: Green beans from 80 cents to \$1.00 per bushel, meal at the same. Pure corn liquor 50 cents per quart and potash whisky 75 cents per quart. Other products in proportion.

The other morning assistant postmaster Tate found an empty Perfum bottle and a razor blade stuck in a stick for a handle close by the office door. Who ever lost these was well equipped. He was prepared to kill the other fellow with the razor and commit suicide by drinking the contents of the bottle.

Rolly Hall, residing a few miles of Dahlonega has three cat-rabbits. Two have short tails and the other a long one. They jump about in the house like rabbits and are attracting the attention of the whole neighborhood. It's a free show and people are going a considerable distance to see them.

Mr. James Arrendale, of Popular Bluff, Missouri, is on a visit to his relatives in this county, in company with his family. Mr. Arrendale left Lumpkin county in 1866 and many changes have taken place since then. A new generation has grown up, but still it is a pleasure for him to come back occasionally and view the place of his childhood days. This is more food for thought for foreign missionary advocates.

There are two cases of typhoid fever out at Last Chance.

Mr. W. F. Worley sold out his household goods here this week and moved to Gainesville.

All those advertising in the Nugget are doing a prosperous business, even if it a dull season.

Mr. Littlefield's residence has been contracted to a Gainesville mechanic who will begin the work at once.

Panpers can be buried much cheaper by the county since the grand jury recommended that the coffins be let out to the lowest bidder.

The preliminary survey of the ditch for the Briar Patch mine was completed Tuesday and can be run high enough to work any hill belonging to the company.

If you are in search of a pleasant and healthy place to spend the rest of the summer come to Dahlonega. The people are all nice and clever and will treat you right.

A little child of Mrs. Turner, a poor lone woman living out at Last Chance, died of whooping cough last Tuesday. It was carried to Nimblybee cemetery and buried at the expense of the county.

A farmer from Union county passed through Dahlonega this week with a portion of a load of green beans for Gainesville where he expected to get a dollar. They have been retailed at 80 cents here this week but now that we are having plenty of rain the price will decrease.

Dahlonega campmeeting commences Tuesday night August 5th, and closes Monday morning Aug. 11th. Presiding Elder W. L. Pierce, Dr. W. F. Quillen, Dr. Curtis, the pastor, Prof. Boyd and other good preachers are expected. Every body welcome. Come one, come all, and let us have a few days of social and religious enjoyment. TENT HOLDERS.

When our good christian people are soliciting money for foreign missions they should remember that there are poor people sick in this country needing medical attention. Had a certain young lady in this country had medical aid at the proper time she might have been alive now. Any way she could have been relieved of much suffering. Physicians were sent for in due time but they could not afford to work for nothing. At last one responded but it was too late.

Mrs. Henry King died over in Shoal Creek district last Monday and was buried at Mt. Gillead cemetery the following day. Mrs. King was the wife of Mr. Henry King who called court here for a long number of years. He passed away some years ago and was buried at Yahoole church. Although they were buried in different cemeteries, several miles apart, they will doubt meet again in that beautiful world so high, for they were both good people, having the old time religion. The age of the lady was 95 years, 6 months and 26 days.

We are reliably informed that Samuel Rider, of Hightower district is charged with taking away and selling his mother's only cow in Gainesville, occurring recently. His brother, Joe, wore out warrant a few days ago and put it in the hands of an officer but the man was gone at last accounts and can't be found. He went to Gainesville pretending to hunt work and Mrs. Riders cow was missed at the same time, and the son after remaining only a few days returned claiming that there was nothing much for him to do down that way. Later—There seems to be no mistake about it. His brother passed through Dahlonega last Wednesday on his way home with the cow. Sam had sold it to one Mr. Hardy for a set of harness and three dollars. Mr. Hardy also swore out a warrant for Rider and if caught it will go hard with him. This is more food for thought for foreign missionary advocates.

The revision of the jury box commences next Monday. For some cause or other the names of good upright men were left out at the last revision and parties put in who were a long ways less competent to serve as jurors. Some times revisors who are appointed by the Superior Court Judge, are left out in after years, showing that wise Judges and jury commissioners don't see alike in this matter, for certainly if a man is competent to act as a revisor he can preserve as a juror. Some times preserve exists.

Mrs. Mollie Blair, nee Miss Mollie Kilgo, of Spartanburg, S. C., will be here to-day.

Miss Fanzie Galliard has returned from Chicago. Her father will also return in a few days.

As I am closing out my business here all persons who are due me on account will please call and settle. J. H. McKEE.

The cabbage crop in this mountain section is fine and some of the farmers are preparing to leave soon for South Georgia with several loads.

Dr. Whelchel was summoned to the bedside of his mother residing in Hall county last Tuesday but she died before he reached her home.

Quite a number of renewals and new subscribers this week, for which we return thanks and will endeavor to continue to give you news worth.

The citizens of Crumby's district are somewhat alarmed about mad dogs. And it is said that a mad dog was seen in that section last Sunday.

A dispatch from Mr. Breymann this week states that he has just returned from Nebraska and he is expected down to look about the mines here next week.

Last Sunday we are told that Mr. West Stancil, of this county, went up to White and brought back a wife, being Miss Beech, a daughter of Mr. Ben Beech.

Recent developments in Dahlonega have proved what we have often said is true—that there is no use of sending money off to the healthens when it can be readily used often right at home.

Dr. McAfee and family, of Atlanta, will be in the city to day or tomorrow. The hot sultry weather below is causing many to flee to the mountains where they can get a cool fresh breeze.

Several of the Lumpkin county boys who went over to Ducktown in search of work recently have returned. They found plenty of work but are not pleased with as much smoke where sometimes it is so thick as to render them unable to see each other.

Samuel Gooch, who moved from Union county down to South Georgia about Christmas, was in Dahlonega last Tuesday and informed on that he was going to return with his family. The lower country doesn't suit mountain people who are used to raising fine cabbage and potatoes.

The bells rang at both the Baptist and Methodist churches here last Sunday evening but only two parties went out—not even a minister. Marshal Harbison went to the Baptist and Mr. Prater to the Methodist, where they remained long enough to ascertain that no one else meant to come and retired themselves.

At B. R. Meaders & Sons' one price cash store, Vermifuge guaranteed 25¢; Liver Tonic 50¢; Cough Syrup 25¢. All good for what their names indicate, if not for the money will return it. Extracts: Cinnamon 4¢; Pepper mint 4¢; Vanilla 5¢; Lemon 5¢; Bateman Drops 5¢; Sweet and Castor Oil 5¢; Paregoric 4¢; Turpentine 4¢; Laudanum 5¢; Syrup of Figs 4¢; Castoria 30¢; Japanese Oil 4¢; one pound, stock powders 26¢.

Mrs. J. M. Hutchins and Tilman Satterfield, formerly of Dahlonega but now at Camp Bird, Colorado, are where there is plenty of work, good wages and doing well. Mr. Hutchins gives us the following prices for labor out there as follows: Labor \$6.00 per day of 8 hours each, Farm hands \$1.75 per day, machine drillers all over this. The "San Juan" country get \$4.00 to \$4.50 per day of 8 hours. White Wash washer gets \$6.00 per day. Flunkies or waiters on the table \$75.00 per month and board. There are no negroes out there and Mr. Hutchins writes that he hasn't seen a woman since he has been at that mine except two or three mens wives.

General Warner has returned from the north.

Messrs. William and Lewis Ricketts, with their families are on a visit to Blue Ridge this week.

There will be a new commandant put in charge of the military department of the college here but who it will be is not known yet.

Mr. C. C. Schly, of Savannah Ga., who owns valuable gold mining property within the limits of the city, spent some days here last week.

You Baptist people bear in mind that we are now able to print your minutes in good style and upon short notice and at reasonable prices.

Mr. A. W. Cain, formerly of Lumpkin county, has made a contract to teach in the Grapeland Public School, Grapeland, Texas. It is a good position and pays well.

Last Sunday was so damp and wet as to kill all the sport at Cane Creek falls. When the weather is nice it is nothing unusual to see from 40 to 50 persons out bathing on Sunday.

That little recent occurrence down the road has caused a considerable sensation among the old women on account of the popularity of both parties and it will not die out until a similar occurrence takes place.

Geo. Frix and Willis Wehunt, of this county, were up before Commissioner Baker last week charged with violating the Internal revenue law and after a strong investigation acquitted and went on their way rejoicing.

The party sending us the names of two subscribers last week failed to enclose the money why perhaps were not sent. Send the money with the order. It will be less trouble and be sure to receive prompt attention.

Since the dancing has commenced at Porter Springs some of Dahlonegas young people go up frequently and enjoy themselves. Ten miles is quite a distance to go for such pleasure but still they do it. And it gives the preachers something to talk about.

Samuel Gooch, who moved from Union county down to South Georgia about Christmas, was in Dahlonega last Tuesday and informed on that he was going to return with his family. The lower country doesn't suit mountain people who are used to raising fine cabbage and potatoes.

The bells rang at both the Baptist and Methodist churches here last Sunday evening but only two parties went out—not even a minister. Marshal Harbison went to the Baptist and Mr. Prater to the Methodist, where they remained long enough to ascertain that no one else meant to come and retired themselves.

Mr. R. C. Thomson sold a lot of his household goods last Saturday and they went like hot cakes during an election and at very high prices at that—some things bringing more than new goods sells for in the city. We don't want to hear the cry of hard times any more for such is not the case unless they come after this sale.

Cox, who married a Miss Caven, of this county and afterwards separated, came in the other night and stood around the lady's place of abode like he meant some mischief. The sheriff and marshal were notified but he disappeared and has not been seen any more. It is said that he is wanted elsewhere on a very serious charge.

Mr. R. C. Thomson left for his old home in the north this morning, who will be joined on the way by his wife now waiting him in Gainesville, both of whom have our best wishes. Mr. Thomson has made some valuable improvements since being in Dahlonega and his citizenship will be greatly missed when it comes to starting a public enterprise having a tendency to build up the town, for he was always on hand when it came to a move of this kind.

## Minning Notes.

Mr. W. B. Fry is doing the canals surveying for the Briar Patch company.

At the Crisson and Loveless mine they are taking out ore believed to be worth \$25 per ton.

Five native miners are making mine some three miles from town, who feel confident that they can make good money.

Mr. Helmer, of Atlanta, Ga., and two other gentlemen of New York, are opening up a mica mine in Union county, on property belonging to Gooch and others.

Prof. Boyd, the Englishman, and Prof. J. W. Boyd are still busy surveying and permanently locating the Cavender's Creek canal, and will soon have it ready for the pick and shovel.

Hon. W. H. McAfee is still progressing with his development work on the Rutherford, adjoining the Briar Patch property with very satisfactory results, really far better than this old miner anticipated.

The mining on Turkey Hill

property this week was very encouraging to its owner, Mr. Packard, proving beyond a doubt that he possesses valuable property. It adjoins the Calhoun and you all know what it is—one of the best gold mines in Georgia.

The preliminary railroad survey from London to the pyrites mine in this county, has been completed and is about seven miles in length. This will give them an outlet from this valuable mine to the Gainesville and Dahlonega line and enable them to reach Atlanta with their material at a very small cost when the Gainesville line is completed.

At the Gordon Roberts and Johnson made a very satisfactory clean up considering the short time they have been running their lift, being unable to run it more than about three hours a day for the lack of water. Some right nice little nuggets were found, one of them weighing something over a pennyweight. Some ore has already been taken out on the property to mill as soon as sufficient rain falls to strengthen the water power.

We were shown by Mr. Wharton Anderson last week two bottles containing 8 or 10 hundred pennyweights of gold which came from the celebrated Calhoun property owned by Mr. Wharton. This is the finest clean up from that mine we have yet seen and the beauty of it, there is plenty more where this came from, and is worked in such a manner as to make the business profitable. It is found in large quantities, not only by Mr. Anderson but by Mr. Jake Loggins on the same property, having panned out as much as 30 pennyweights a day.

The lease of Mr. Tom Bucket and Mr. Will Weaver, at certain places on the Standard property has expired but is likely to be renewed as soon as the proper parties strive. They are both good miners and should not be allowed to idle while there are so much veins unworked. The company is cutting a tunnel and doing other work on the property but have been unable to make much headway for the want of sufficient power to run the drills owing to the long drought. Mr. Wm. Campbell is kept busy by the company prospecting all the time.

The Dahlonega Gold Mining & Milling Company has determined to cut a ditch to the famous Briar Patch mine, which it owns at once, and to that end has secured the water rights of "Bull Shoals" creek at Peck's mill, and is now having a line of ditch surveyed from there to the property of the company and the company hopes to have it completed as soon as possible. Capt. John Huff has been employed as superintendent of construction and was ordered to push the ditch to completion. With this ditch of water on the property the Briar Patch will no doubt be a dividend paid by the early month of next spring.

In Brazil drinking brandy together may constitute a marriage, in Japan the same with wine. To join hands, to sit together and receive congratulations are odd binding customs, also to be smeared with each other's blood or for the woman to tie a rope around the man's waist.

Many of those who left Hall county, Ga., last year for Texas have returned and are totally disgusted with that state. The others will return this coming fall if they can make enough off their cotton to pay their way back. The cotton crop is literally burned up.

Always say a kind word if you can, if only that it may come in perhaps, with singular opportunity entering some mournful man's darkened room like a beautiful firefly, whose happy convolutions he cannot but watch, forgetting his many troubles.

### TICKET

Nominated by the Democratic Primary June 5, 1902:

For Representative,  
G. D. BRUCE.  
For Clerk Superior Court,  
JOHN H. MOORE.  
For Sheriff,  
J. M. DAVIS.

For Tax Receiver,  
J. L. HEALAN.  
For Tax Collector,  
E. J. WALDEN.  
For County Treasurer,  
J. B. BROWN.  
For County Surveyor,  
V. R. HICKS.  
For Coroner,  
D. C. STOW.

### CITY DIRECTORY

#### SUPERIOR COURT.

3rd Mondays in April and October. J. B. Brittain, Judge, Gainesville, Ga. W. A. Charters, Solicitor General, Dahlonega, Ga.

#### JUSTICES COURTS.

Auraria—1st Friday; W. B. Lowe, J. P. J. A. Hollifield, N. P. Crumby—1st Saturday; A. J. Edge, N. P. David Grindle, J. P. Cane Creek—1st Saturday, Jas. Ridley, J. P. J. H. Satterfield, N. P. Chesteeate—2nd Saturday, W. A. White, J. P.

Dahlonega—2nd Friday—W. J. Worley, J. P. G. H. McGuire, N. P. Davis—1st Friday—W. H. Higgins, J. P. C. Odom, N. P. Fann—2nd Friday—2nd Saturday; Geo. White, J. P. W. M. Grindale, N. P. Hightower—2nd Saturday; H. T. Lee, J. P. J. N. Satterfield, N. P. Jones' Creek—Saturday before 3rd Sunday; Miles Berry, N. P. Mill Creek—2nd Saturday, H. Chambers, J. P. E. Corn, N. P. Martin's Ford—2nd Saturday; John Wacester, J. P. C. R. Gitting, N. P.

Nimblewill—Friday before 4th Sunday; S. H. Grizzel, J. P.; John Cochran, N. P.

Porter Springs—1st Saturday, John B. Ruckets, N. P. Shoal Creek—4th Saturday; Geo. Burges, J. P. H. W. S. Stringer, N. P.

Wahoo—2nd Saturday; James A. Abercrombie, J. P. W. P. Gillispie, N. P.

Yahoola—2nd Saturday; J. B. Coldwell, J. P. John A. Anderson, N. P.

#### COUNTY OFFICERS.

John Huff, Ordinary.  
John H. Moore, Clerk.  
James M. Davis, Sheriff.

Sunday School at 9 o'clock.

Presbyterian—Services 11 a. m. & 7:30 p. m. except 1st Sunday. Rev. D. J. Blackwell, pastor.

Sunday School 9 a. m.

### BARBER SHOP.

When wanting a nice clean shave hair cut or shampoo call on us at 100 & Union Street. First class barber shop in every respect next door to McGee's store on main street where they will be found ready to wait on you at any time.

### No Time to Lose

You cannot afford to disregard the warnings of a weak and diseased heart and put off taking the prescription of the world's greatest authority on heart and nervous disorders—

#### Dr. Miles' Heart Cure.

If your heart palpitates, flutters, or you are short of breath, have something spells down in left side shoulder or arm, you have heart trouble and are liable to drop dead any moment.

Major J. W. Woodcock, one of the best known oil operators in the country, has been using Dr. Miles' Heart Cure, I had palpitation of the heart, severe pains under the right shoulder, and my health was miserable.

A few bottles of Dr. Miles' Heart Cure cured me rapidly.

Buy it at Druggists.

Dr. Miles Medical Co., Elkhart, Ind.

### JEWELRY

### JEWELRY

### G. H. McGuire,

Dahlonega, Ga.  
Next to Judge Brittan's Old Residence, Main Street.

### D. CHALMERS STOW,

Funeral Director & Embalmer  
And Dealer in COFFINS, CASKETS, COFFIN FIXTURES, and BURIAL ROBES, Dahlonega, Ga.

### SHERIFF'S SALE.

Georgia, Lumpkin County.

Will be sold before the court house door of the county of Lumpkin on the 1st Tuesday in August at 10 within 100 yards of the jail to the highest bidder for cash the following property:

Lot of land number 1023 except the unclaimed three fourths of the mineral interest and lot of land number 1024 except three fourths of the mineral interest (undivided) both said lots lying and being in the 12th district and first section of Dahlonega, Georgia, containing 40 acres more or less. Leved on as the property of E. P. Hayden, by virtue of and to satisfy a fine issued from the Justice of the Peace 900th district G. M. in favor of J. H. Morrison, the said E. P. Hayden Levy made and returned to me by J. C. Walker, L. C. This the 7th day of July, 1902.

J. M. DAVIS, Sheriff.

Notes for Old U. S. and Confederate Stamps. Look over your letter papers and stamps and see if you haven't a number. Look around in old boxes, desks, and trunks in the garret and basement and you may find a few. Write us a description of the stamps, or mail them to us and we will examine it once and make you a cash offer, if stamps are suitable, and if they are good we will return them. Don't take the stamps out of the envelope, but send the envelope with stamps attached.

JOHN HOWARD,  
Dahlonega, Ga.

### COTTON LOUSE ENEMY

One Insect That Proves to Be the Planter's Friend.

#### THE CONVERGENT LADY-BUG

Instead of Being Injurious to the Cotton Plant This Little Bug Is of Inestimable Benefit to Same.

Every one knows that the cotton, in common with nearly all other kinds of plants, is subject to the attack of insects, but very few realize the immense variety of them that depend more or less upon this staple for food. The cotton worm, cotton boll worm, Mexican cotton boll weevil, cotton louse, etc., are but a few examples of the most common, but fortunately only a few are at all apt to appear in serious numbers, and these are very variable in their appearance. Sometimes they occur in such abundance as to appear to jeopardize the entire crop in a more or less extended area, while again their numbers are so insignificant as to pass unnoticed.

This striking variability is due in part to a great many causes, some of them easy to understand, others more obscure in their nature. Nothing is of greater importance, though, than the weather conditions at certain seasons of the year. Most insects thrive on a dry and warm season, while the opposite is true of fungous diseases. Last year the excessive rains and long continued periods of cloudy weather made the conditions very favorable for the latter mentioned, and the result was an outbreak quite serious in some sections, particularly in the southern states.

Luckily most of the insect pests are subject to seasonal migrations and, as far as possible, to the insect's own control.

The cotton louse belongs to the latter class. This insect only requires about ten days to develop from a newly born young to an adult capable of producing young. The rate of increase and the number of generations would be almost beyond computation did natural causes intervene and prevent such a disaster. It is very safe to say that without such intervention this insect alone would probably ruin the cotton crop the first season that it was allowed to get well established.

The cotton louse takes care of its own, both plants and insects, and such a calamity as that just mentioned will probably never take place. So sure as an insect passes the bounds prescribed for it, and threatens serious destruction of the varieties of plants which serve as its food, it becomes further interested, usually in the form of some predaceous enemy or more commonly yet, of some dread contagious disease which sweeps through the insect armies and leaves hardly survivors enough to continue the race. It is only by some accident of nature that the balance of nature is destroyed, as when some herdsmen's insect is introduced into a new country, or large areas of land are made to produce crops not eminently fitted for just that course of a favorable season.

The cotton louse belongs to the latter class. This insect only requires about ten days to develop from a newly born young to an adult capable of producing young. The rate of increase and the number of generations would be almost beyond computation did natural causes intervene and prevent such a disaster. It is very safe to say that without such intervention this insect alone would probably ruin the cotton crop the first season that it was allowed to get well established.

The rate of increase and the number of generations would be almost beyond computation did natural causes intervene and prevent such a disaster. It is very safe to say that without such intervention this insect alone would probably ruin the cotton crop the first season that it was allowed to get well established.

The cotton louse belongs to the latter class. This insect only requires about ten days to develop from a newly born young to an adult capable of producing young. The rate of increase and the number of generations would be almost beyond computation did natural causes intervene and prevent such a disaster. It is very safe to say that without such intervention this insect alone would probably ruin the cotton crop the first season that it was allowed to get well established.

somewhat enlarged, as they may be found crawling about over the leaves. Both the young and the adult are very voracious, and do much damage to the cotton plant. Figure 1 shows the intermediate resting stage known as the pupa enlarged. This is bright orange in color, with black spots, and may be found attached to the leaves and stems of cotton, or other louse infested plants. The specimen from which the drawing was made was taken from a plant of cotton growing beneath a large pine tree which was covered with lice. It is specimens of this form which are more commonly sent us for determination, oftentimes 15 or 20 being attached to the tip of a cotton stalk, and nearly always on arrival some of them will hatch into active larvae, which will crawl about and eat cotton, and will pass successively through larger and larger stages of active crawling larvae, then through the resting stage, or pupa, and finally becoming active again, they acquire wings, and are ready to lay eggs for another and numerous generations. In the autumn, when the food supply becomes scarce and finally exhausted, the full grown lady bugs seek sheltered places in the woods, under the rough bark of trees, amongst dried leaves, etc., and in the earliest spring come forth again to destroy the cotton louse. They are not afraid of the hardships of the winter, but courage unabated.

As an illustration of the queer places which they choose for winter quarters, I once found a large colony, perhaps numbering thousands, sunning themselves on the bases of the leaves which thickly covered the twigs of a young pine tree.

In conclusion, regarding the appearance of these insects in cotton fields, I would repeat that there can be no question as to their beneficial nature.

**ARE YOU WISE?** A great many people suffer through ignorance. They don't know that for all information there is no remedy to equal Mexican Mustang Liniment.

**MEXICAN MUSTANG LINIMENT**

and a sure way to treat the throat at frequent intervals.

Then bathe the outside of the throat thoroughly with the liniment and after doing this pour some on a soft cloth and wrap around the neck. It is a POSITIVE CURE.

25c, 50c, and \$1.00 a bottle.

**IT MAY BE YOU** have long been troubled with a running sore on your neck. Treat it at once with Mexican Mustang Liniment and you can depend upon a speedy cure.

Send with this sample the throat at frequent intervals.

Then bathe the outside of the throat thoroughly with the liniment and after doing this pour some on a soft cloth and wrap around the neck. It is a POSITIVE CURE.

## TO SUMMER VISITORS.

ALL who are in search of health and recreation are cordially invited to come to Dahlonega. With an altitude of 2,237 feet makes it one of the most healthy and delightful places in the south. So if you wish to enjoy a pure fresh mountain breeze and be comfortable during the summer months come. Good board can be obtained at private houses for \$15 per month, and at hotels from \$20 to \$25. Stage fare from Gainesville, 25 miles, \$1.50.

### THE MOTHERS.

of Tomorrow-The Old Idea  
and the New.

The following from one of our exchanges is too good to lose, though we have forgotten the name of the exchange: "There has been, according to history, an idea in the world that education was intended for boys, and boys only; that women had no need of any book knowledge more than to read, write and figure a little; that to educate a girl was waste of energy, time and money; and too, that all education would not and could not be of any advantage to the female sex. Things for girls to know were how to spin, weave, wash, sew, cook and all such drudgery work as might need to be done in housekeeping, and when she advanced beyond this she was getting on forbidden grounds for a woman.

"Such was once the prevailing idea in regard to the education of the female sex, and even today some of our people cling to that same nonsensical idea.

"The girls should know how to do all those things mentioned, and more. The old idea of this being a sufficient knowledge for a girl has been abandoned by our best and most broad-minded people. They see that to educate the girls of our land means mere contentment for that sex, but, on the contrary means true happiness and prosperity for the rising generation.

"The girls of today are to be mothers of tomorrow; and to be mothers of tomorrow, and old how thankful a boy or a girl should be who has an educated mother. An educated mother almost means an educated son or daughter. A child who never hears poorly spoken English never speaks. It is the mother who the everlasting influence over son or daughter; and for these reasons if for no other, give us educated women—women with an all-round education, and Christian women.

"So give us rightly educated mothers, and we will have less trouble with the young generation need fewer lawyers, fewer prisons, fewer sheriffs and have fewer drunkards. We will have more churches and better members, better citizens and better and happier homes. Humanity will then stand on a higher and nobler place than ever before."

An exchange contains this interesting item of Mrs. Nation: "Carry Nation has come down another peg or two and is now advertising herself as a street fair attraction in Missouri. Several managers have received her literature, which bears a half-tone picture, of the old lady, beneath which is this line; 'America's most famous woman.' The fair season is not being fully open yet, she is going about the state making speeches, selling hatchets and soliciting money to build a home in Kansas City, Kan., for the destitute widows of drunkards."

### Pa Had His Say.

A young woman who prevailed on her parents to send her to one of the fashionable seminaries underwent a social evolution in side of a year that made the old folks wonder where they were at, says the Phil. Times. Her letters grew less effectionate and more affected with the passings of the months she mapped out and carried into effect an itinerary for her vacation of last summer that gave her exactly 7 nights at home in more than 13 weeks; her clothes period—costs her father nearly \$600 dollars; and her mother found herself principally engaged in keeping track of the blooming scholar's gowns. When she returned to the seminary in September there was no improvement from the parents' view point. She graduated however, with some honors, and a few weeks ago to inform her father that she now was ready to take up psychology, sociology, biology, etc.—The old man stopped her right there, and said:

"Now here, girl, we've put up with this sort of thing nearly 2 years, and we've had enough. I've no doubt you've done yourself proud after a fashion, mother and I have decided that you'll stop here, let her have a rest, and you'll take up roatology, washology, stethoscopy, darnology, and you'd best begin tomorrow, by gettin' breakfast for dad."

It is estimated that 250 carloads of cantaloupes will be shipped this year from Southwest Georgia. A considerable portion of the crop was disposed of some time ahead of the shipment. For two weeks last month as many growers as could do so made contracts for laborers by twenties and fifties, and within a radius of twenty miles of Albany about 2000 pickers have been engaged.

The Towers-Freeman Orchard Co. Of Rome, Ga., which planted 45,000 peach trees last season, will plant 20,000 more next season. The firm of Freeman & Rest of the same city will plant 15,000 peach trees on its fruit farm six miles from Rome, where already 20,000 peach, apple, pear and pecan trees are growing. About 2000 trees were planted in the neighborhood of Rome last season.

"Once upon a time there was a colored preacher who took for his text: 'The devil goes about like a roaring lion, seeking whom he may devour.' In announcing his subject he said: 'Brethren and sisters, I will divide my text into three parts—first, Who am I? second. Where are he goin'? third. What in the deuce am he roarin' all.'

Mr. Louis B. Magid of New York announced that he will make his initial experiments in silkworm culture on 1500 acres of land near Tallulah Falls, Ga. He proposes to divide the land into small farms tillied by expert Italian farmers from the piedmont region of Italy.

Treasurer Dudley of Hosiery mills at Boston is short \$120,000.

Two cars of peaches a day are being shipped from Calhoun, Ga.

About 225 carloads of cantaloupes were shipped from Blaksville, S. C., during the past season.

Henry Poland, of Savannah, leaped in front of a train the other day to save his dog and lost his life.

William Treadwell, at Norfork, Va., who murdered his wife and wants to be hung as soon as possible, is going to be accommodated.

In a recent divorce suit the wife made complaint that her husband's trousers did not fit him. The cause of many divorce suits is that the husband's trousers do not fit the wife.

C. O. Gish, formerly of Iowa, but now manager of a farm four miles west of Little Rock Ark., expects to harvest 200 bushels of Irish potatoes from one and one-half acres of land.

In one day last month fifty-five carloads of peaches were shipped from Georgia to New York, Philadelphia, Boston, Hartford, Providence, Pittsburgh and Cincinnati. The shipments represented \$37,000.

A negro standing on the streets the other morning, was describing the good things he was going to have for dinner, when another negro who was listening, shouted, "Hush, you'll make me swallow my tongue."

The U. S. Force had 2,501 engagements in the Philippines, not one of which was lost. About 130,000 troops have been transported there. There were 139 officers and 4,016 enlisted men to die from wound or disease, and 2,897 were wounded.

A man who had been arrested for murder bribed an Irishman on the jury for one hundred dollars to bang out for a verdict for man slaughter. The man went to the Irishman and thanked him and asked if he had a hard time. "Yes," said the Irishman, "a hell of a time. The balance all wanted to acquit you."

A Kansas editor lays down this rule by which to tell a man's politics: "Get him into a hotel bath room. The Democrat will wash and empty the basin, the Republican will wash and leave the water standing; the Prohibitionist will wash in the water left by the Republican, and the Populist will comb his whiskers and not wash at all."

The National Department of Agriculture is experimenting with shipments of early apples to England. The Canadian government has successfully exported early apples, and the Agricultural Department hopes that an export trade may be established in the early apples which are now grown largely in Maryland and Delaware.

# THE NUGGET

DAHLONEGA, AUGUST 8, 1902.

Entered at the Dahlonega, Ga., P. O.  
as Second Class Matter.

Official Organ of both City and  
County.

FOR GOVERNOR,  
HON. J. M. TERRELL,  
OF  
MERIWETHER COUNTY.

The floods in Texas have been  
very disastrous. Many lives were  
saved by taking to trees.

It is said that oil has been dis-  
covered in a well near Rome caus-  
ing great excitement among her  
citizens.

Two robbers who recently rob-  
bed a train in Texas of \$30,000  
have been captured and the mon-  
ey recovered.

Comptroller General Wright  
has extended the time to tax re-  
ceivers until the 10th to send in  
their digests.

Mrs. Bryan says he is no can-  
didate for president. We thought  
when he went into weekly jour-  
nalism he would change his mind.

The president has been asked to  
remove postmaster Walker of  
Toccoa. The petition alleges that  
he gets drunk and is unfit to hold

Mrs. Elizabeth H. Shatten, of  
Savannah claims, that she has been  
held five years against her will by  
Dr. Allen's private sanitarium at  
Milledgeville.

Many who criticized Hon.  
Thomas E. Watson while he was  
a populist, now go many miles and  
pay to hear him speak since he is  
out of politics.

It is asserted that the increase of  
taxable property in Georgia  
this year will be in the neighbor-  
hood of \$12,000,000, being much  
larger than was at first expected.

The states attorney has rendered a  
decision to the effect that confed-  
erate veterans over 50 years of age  
soliciting fire and life insurance are  
exempt from the special tax on  
such soldiers.

Last week John S. Day in Atlanta  
swallowed laudanum and left  
word that he was "going to glo-  
ry." Others wishing to get to this  
happy place should adopt some  
other method by which to reach  
there for such as this is risky busi-  
ness.

At the next session of the legis-  
lature a bill will be introduced  
providing for terms of four years  
for all county officials. This will  
be a good move and we hope it  
will become a law. Too much  
time is wasted in politics under  
the present act.

Stover, the convict from Hall  
county, who escaped on the 23rd  
of July from the state farm at  
Milledgeville, has been captured  
near Swainsboro, Ga. While he  
was escaping the guard shot off  
his hat brim and put one load of  
his bobsleds for damages.

There are now three candidates  
for the senate from this district  
in Dawson to-wit: Messrs. R. B.  
McClure, D. J. Burt and P.  
Strickland. As stated before it is  
Dawson's time to select the can-  
didate for the present and it has  
good material to choose from.

A new married couple, who are  
too poor to pay for the ride are  
now footing it way from Richmond  
Va., to Dayton, Ohio. They eloped  
from Washington and were wed-  
ded about four months ago. This  
kind of a married life would seem  
to us to be anything but happy.

George B. Mansing, who has a  
pinery near Tampa, Fla., is per-  
fecting plans, according to the Tribune,  
for the establishment in that city of a plant to degum and  
refine the fiber of pineapple leaves to  
be used in the manufacture of cloth  
resembling silk. The fiber  
will be extracted from the plants  
in the fields and shipped to Tampa  
for treatment. Mr. Mansing calcu-  
lates that the value of the product  
will be equal to that of the  
pineapple.

The populist of Jackson county  
have put out county ticket.

The outfit of gold at Crispie  
Creek for July was \$2,089,780.

The confederate veterans home  
in Atlanta will be completed in a  
few days.

Policeman Bud Smith, of Gaines-  
ville, has been suspended for 10 days  
charged with conduct unbecoming  
an officer.

An independant is like a lone  
legged rooster—can crow but  
unable to scratch and therefore is  
no good to himself or any one else.

Rucker, Georgia's negro U. S.  
Collector located in Atlanta is no  
doubt encouraged by the actions of  
the so called democrats of Lump-  
kin county.

The jury failed to agree in the  
case of John Phillips in Hall coun-  
try charged with killing a negro a  
short time ago named Gus Quill-  
ian. Phillips claims that he did it  
in self defense.

Be either a democrat or republi-  
can. We have learned by exper-  
ience that drones are even worthless  
in politics. By being one or the  
other you command the respect of  
all good citizens.

Now the question is, what demo-  
crat in Lumpkin county is willing  
to be used as a phonograph for the  
republican party during the pres-  
ent campaign when the proceeds  
all go to the latter.

Last week during the funeral  
procession of Chief Rabbi Jacob  
Joseph, in New York, on Grand  
street pails of water were emptied  
on the crowds below, and tools,  
bolts and a dead end followed,  
started by the employees of R.  
Hoe & Co., causing a riot.

On Wednesday of last week a  
riot occurred between the striking  
miners at Shenandoah, Pa., and  
non union men and officers, result-  
ing in the death of two or three  
and a score of miners wounded.  
Twelve hundred state troops were  
sent at once to restore order.

The Wiregrass Blade didn't ap-  
pear last week.

Bro. Bell, its editor, received the notification for  
one of the representatives of  
Emmanuel county the week pre-  
vious, causing our friend to take  
one week in fasting and offering up  
thanks.

Mrs. Missouri Overby, of Bu-  
ford Ga., is under arrest in Atlanta  
for passing a raised \$2.00 for a \$80  
bill. She claims that her sweet  
heart to whom she was to be mar-  
ried gave it to her, but he can't be  
found and the wedding will not  
likely take place now.

Governor Candler is getting af-  
fers the sheriff of Montgomery, co-  
with a sharp stick. On July the 11th a  
pardon was issued for the release of C. B. Freeman, a white  
man. But the sheriff paid no at-  
tention to the notice and kept  
Freeman at work. It is likely  
that Freeman will bring suit  
against sheriff Higgs and his  
bondsman for damages.

Saturday the republicans of  
Lumpkin county have their meet-  
ing here for the purpose of taking  
the best steps possible to advance  
their interest in this section, which  
will be to take up the so called  
independent democrat, handle him  
as a corn stalk, fiddle with and  
use of a Rucker bow will produce  
music until the October election.  
Then he will be rolled up in the  
democratic-republican-populist-  
prohibition Signal and placed on  
a shelf where the rats can't gnaw  
him.

Even if there was any chance  
for an independent to misrepresent  
Lumpkin county in the general  
assembly, what man is willing to  
go and when it comes to the begin-  
ning of business in a democratic  
caucus, be compelled to retire by  
request and file out of the hall  
with the negroes and republicans  
to the steps and take a seat. Then  
for the first time they can fully  
realize their situation and condi-  
tion and with their eyes cast upon  
their colored companions sing  
the good old appropriate hymn,  
"Sweet birds, and sweet pros-  
pects, and sweet flowers, have lost  
all their sweetness to the way."

## Mining Notes.

Prospecting on the Chestatee  
mine is showing up well.

All the mining operations  
around Aurora are reported as  
doing well.

The work on the Standard is  
progressing about as usual, pay-  
ing all those engaged a profit.

Cherokee county comes to the  
front with a hundred pennyweight  
nugget of gold picked up at the  
Big Six mine.

Bryson and the Stepp-boys are  
getting up some good shows on  
the Lightner lot adjoining the  
Chestatee property.

Mr. Packard's recent clean up  
at Turkey Hill mine realized him  
eleven and a half ounces of gold,  
which gives an idea of its rich-  
ness.

Mr. McAfee tells us that the  
prospects on the Rutherford prop-  
erty are splendid. He has opened  
up several good veins and is on  
another.

Mr. Maxwell commenced last  
Monday to do more development  
work on the iron mining property  
of the Consolidated Co., only a  
few miles of Dahlonega. Others  
owning mining property in this  
county would find it to their in-  
terest to do likewise.

Roberts and Johnson struck it  
rich down on the Gordon last  
week while engaged in vein min-  
ing. One panful produced more  
than two pennweights and ore  
taken out since is believed to be  
worth from eight to ten dollars to  
the pan. When it rains so they  
can't operate their lift in the  
creek they go to the hills with  
their picks and shovels.

Assistants state geologist Watson  
and Jones have been here this  
week investigating the manganese  
of the county. Instead of going  
out where it is visited the Crown  
Mountain plant, so we understand.  
This reminds us of the state geo-  
logist who came up some years ago  
to investigate the gold mines who  
went up to the Garnet mine and  
examined the machinery of the  
plant!

The survey of Cavender's Creek  
canal is being pressed forward.  
As soon as the main line is com-  
pleted other branch ditches will  
be surveyed. This company owns  
several hundred acres of mineral  
property in that neighborhood and  
it is the owners intention to se-  
cure sufficient water power for  
its successful operation. Later—

The main line was finished Tues-  
day, but some changes may yet  
be made in it so as to shorten the  
route.

Mr. Thomas Johnson and oth-  
ers are working a vein down on  
the Ivy property which is yield-  
ing splendidly. A mill test last  
week proved it to be worth about  
fifteen dollars per ton. But the  
necessity of hauling the ore to a  
mill more than two miles away  
makes it pretty expensive hand-  
ling. A ten or twenty stamp mill  
with water power sufficient to op-  
erate it would soon pay its owners  
a handsome dividend, for there  
are a number of good veins al-  
ready opened up on the Ivy. By  
reopening the Cane Creek ditch  
again ample water could be had.

The ditch when finished to the  
Briar Patch property runs higher  
by twenty-five feet than any other  
ditch in that section and will  
enable them to work some of the  
best mining property in the coun-  
try that has heretofore been un-  
touched for the lack of sufficient  
water power. Besides this the  
bed of the Chestatee river from  
Bearden's bridge down below the  
Briar Patch property and the  
vein mines all along this stream,  
can be operated, saying nothing  
of the celebrated property  
for which this canal is intend-  
ed, and will be of great benefit to  
its owners and the entire coun-  
try. Mr. Fry is making the per-  
manent survey and Manager Huff  
informs us that they will com-  
mence cutting the ditch just as  
soon as the tools are received,  
some of them have already arrived.  
And probably by this time  
they have commenced getting logs  
for the dam and cutting out the  
right of way for the canal.

Henry Gamlin, of this county,  
was arrested and lodged in jail on  
Wednesday by Marshal Grizzie,  
charged with blocking, who will  
have a trial as soon as the witness-  
es can be summoned.

Last week Manuel Howell,  
col., got hurt in a well and could  
hardly creep. This week a blockader  
came to town and with the use  
of his "ointment" relieved  
Manuels pains so that he walks  
about all right and has even  
forgot where he put his stick.  
Now, who shall be thank, the  
Lord or the blockader? Don't all  
the temperance people speak at  
once.

We haven't been out to the camp  
ground this week but remained in  
town so as to keep up with the  
political matters and can assure  
our readers that what we have  
seen and learned would almost  
tickle the old woman to death if  
they knew it but we will not say  
anything about it now for fear  
some might lose interest in the  
meeting. All sleep headed people  
will die with old age and never  
learn the ways of the world.

At a meeting of the city council  
last Tuesday but very little busi-  
ness was transacted. The mar-  
shals report showed that he had  
collected \$16,000 sanitary tax for  
the city, Sheriff Carter, and \$16,80  
strect tax for the first half year.  
The accounts examined and ord-  
ered paid amounted to \$14,43. Com-  
plaint was made by some parties  
that certain mining property had  
been assessed too high, and asked  
for a reduction, but it was not  
granted.

In summer can be prevented  
by taking  
**Scott's Emulsion**  
It is as beneficial in summer as  
in winter. When weak or  
run down, it will build you up.  
Send for free sample.  
SCOTT, 100 Pearl Street,  
New York. Send for all druggists.

**SHERIFF'S SALE.**  
Georgia, Lumpkin County.  
Will be sold before the court house  
door of the county of Lumpkin on the  
1st Tuesday in September next within  
the legal hours of sale to the highest  
bidder for cash the following property  
to-wit:  
The undivided one-fourth of the  
farming interest in and to lot of land  
number 475, in the 15th district and 1st  
section, in the town of Dahlonega.

Levied on as the property of Andrew  
Hoffman by virtue of and to satisfy  
a f. fa. issued from the Justices  
Court of the 3990th District, G. M., of  
which he died and Andrew Hoffman  
Levy made and reduced to me by G.  
W. Christy, L. G. This August 6th,  
1902. J. M. DAVIS, Sheriff.

**ADMINISTRATOR'S SALE.**  
By virtue of an order of the Court of  
Ordinary of the August term, 1902, of  
said Court, I will sell at public outcry  
before the court house door of the  
county of Lumpkin, within the  
legal hours of sale, on the 1st Tuesday in  
September next, the following property  
to-wit:  
The west half of lot of land  
number 441 and twenty acres more  
or less of or less of the north east cor-  
ner of lot of land number 440, and land  
number 442, all in the 5th District and 1st  
section of Lumpkin county, Georgia, and  
the same being one contiguous tract  
and being known as the Bell Wrenham  
farm in the 5th District of said county.  
To be sold in lots by W. M. Wrenham,  
Administrator, for the payment of  
the sum of \$1,000.00, being the amount  
of the distribution among the heirs of  
the estate of deceased, Terms cash, this  
6th day of August, 1902.

B. F. ANDERSON, adm'r  
of W. M. Wrenham.

**ADMINISTRATOR'S SALE.**  
Georgia, Lumpkin county.  
By virtue of an order of the Court of  
Ordinary of said county, dated the 4th  
of August, 1902, I will sell at public outcry  
before the court house door of the  
county of Lumpkin, within the  
legal hours of sale, on the 1st Tuesday in  
September next, the following property  
to-wit:  
The south half of lot of land No. 394,  
the following real estate situated in  
the Lumpkin county, Georgia:  
The south half of lot of land No. 395, the farming  
interest in lot of land No. 377. All of  
lot of land No. 376 (except about one  
acre) lying near the north east corner of  
lot of land No. 375, for which the  
family burial ground and known as  
the Arcendale Grave Yards.) The  
North half of lot of land No. 394. All  
of lot of land No. 325, all of lot of  
land No. 326, all of lot of land  
No. 391, all of lot of land No. 305, the  
south half of lot of land No. 394. All  
of the above described lots and parts of  
lots of land lying and being in the 12th  
district and 1st section of Lumpkin  
county, Georgia. Also the undivided  
one-fourth of the mineral interest in  
lot of land No. 174, lying and being in  
the 13th District and First Section  
North half of lot of land No. 175, Georgia.  
Terms as above set forth.  
This 4th day of August, 1902.

A. M. ARREDONDA, Administrator.

table with the best the  
country affords.  
GIVE US A CALL.

# THE NUGGET.

DAHLONEGA, AUGUST 8, 1862.

If you need any visiting cards, either blank or printed call at the NUGGET office.

Green apples sold here last week at 15 cents per bushel, but of course were not very choice.

The rainfall of last Saturday was the greatest of any here this summer, being one and twenty one hundredths.

We now have not less than fifty dollars worth of various kinds of stationary on hand ready to wait on those needing job work.

Another new lot of stationary received at this office. Drop in and get samples and prices if you are needing any job work.

U. S. officials Crawford and Grizzel made a short tour into Dawson county last week and destroyed three illicit distilleries.

Lightning struck a chestnut tree within a few yards of the Bob Howell house where Mr. Blackstock resides, last Saturday, but fortunately none of the inmates were hurt but considerably frightened.

The best quality of Empire Bond legal type writer paper for sale at the NUGGET office at \$1.00 per ream. We have the letter size which we can put a little printers ink on it at a very small increase in price.

At seeing a negro preacher walking about over town last Sunday under an umbrella we couldn't help thinking that it is no wonder people who toil every day in the sun don't care to help keep up such frisky divines.

Miss Joe Deck, and Mr. and Mrs. Trewitt, of Dalton, are here on a visit to relatives. The ladies are Judge Jacob Deeks daughters who have many friends here that are glad to see them back to their childhood homes once more.

The Superior Court stenographer, Mr. Swain, is back in Dahlonega. He never fails to make things pleasant and agreeable wherever he goes, is one reason why he has so many friends in the city who are always proud of his appearance.

Will Childers left out recently, Will and Frank Rider were charged with shooting a pistol down about Soul's Chapel recently, during Sunday School is the cause of the former fleeing from other parts, but the latter is going to stand the storm.

Negro Prime Anderson's boy, Will, of this county went to Atlanta a few days ago to take in the sights of the city and while stealing a ride on the car was carried where he could take a peep into the jail and told to remain until he was wanted in court.

Mr. D. C. Stow has been appointed coroner to fill the unexpired term of Mr. G. McGuire, who resigned. Mr. McGuire had to do this in order to remain a jury referee. Mr. Stow has been nominated for this position and when the general election comes off he will no doubt be elected without opposition.

The set of harness Samuel Rider got for his mother's cow recently were left by him before he departed at Ricketts & Watson's barbershop, and are still there. Mr. Watson says that they have been called for by parties but it is his intention to keep them for the man in Gainesville who sold them to Rider. So if he gets them he will only lose the \$8.00 in cash paid extra. Rider is now in Hall county jail.

The nasty old bugs, since the potato vines have about dried up have commenced on the cabbage in some portions of the county. But Miss Lizzie Grizzel of Yoloa district, has found a way to get rid of them. After they appeared she went out into the cabbage patch and killed a lot of them. Soon afterwards the yellow worms came along and carried off both dead and live bugs and hunted for more.

The colored Baptist Association begins here next Thursday night.

Dr. McAfee and family of Atlanta will spend a few weeks here.

Mrs. Mattie Hurley of Atlanta, nee Miss Mattie Moore, arrived in the city last week, on a visit to relatives.

I am closing out my business here all persons who are due me on account will please call and settle. J. H. MCKEE.

The recent rains have been of great benefit to the growing crops and will result in much benefit to the farmer who had almost become disheartened.

Remember if your clock or watch won't run H. E. Watson at the Bon Ton barber shop will put it in running order for you on reasonable terms.

Mr. and Mrs. G. K. Gettens, of New Bridge, Ga., returned to their home in that vicinity last Monday after a three weeks visit with relatives in Atlanta.

The refreshing rains of last week reduced the price of green beans and our farmers will be able to get one dollar per bushel this season here any more.

Uncle Newton Davis while in town last Monday with a load of watermelons contributed a large fine one to the NUGGET office, for which he has the thanks from the "devil" on up to the quill driver.

We saw another Atlanta drummer return last Monday with a coop of five chickens bought here. Seventy-five miles is a considerable distance for drummers to carry chickens yet they love them so well they will do it.

On Friday evening last Mrs. William Franklin died from the effects of a cancer on her face and was nicely prepared for her long resting place by her sons, which took place on Sunday morning by the side of her husband who passed away only a few months ago.

Col. Price commenced his speeches at the public schools of this county last Friday and has been making two a day ever since at what he calls educational rallies. His last speeches did but little good judging from what he says in his circular which we quote as follows: "Not more than one-half the children of school age, in the rural districts are attending the public schools." So it is useless to worry over the matter by speaking. The best plan is to select good popular teachers.

Five parties had a regular rally out at Mill Creek church one night last week during services. Their names are Alto Parks, Bishop Anderson, Brady Duncan, John Crain, and Elmer Parks. All from Dawson county. They had a fight right in the house while the preacher was up in the stand explaining the Bible and trying to map out a way for his hearers all to get to heaven, but these parties took the wrong route and will likely get lost unless the sheriff gets hold of them and Judge Estes gets a shake at them. Elmer Parks has since been arrested, waived examination and made bond for his appearance at the next term of Lumpkin Superior Court.

At a meeting of the board of trustees of the N. G. A. College last Saturday evening Prof. John N. Rogers, now Superintendent of schools at Washington county, was elected to fill the chair of agriculture and to be manager of the dining hall and resident professor in girl's dormitory. Mr. J. C. Barnes, graduate of the N. G. A. College was also elected as tutor in Mathematics and Science. This completes the election for professors. A change has been made in the military department. Ben. P. Runkle, Major U. S. army, has been detailed by the United States to take charge of this department here. At the time his services were secured Major Runkle was commandant of cadets at the Maune University.

Our esteemed friend Mr. R. L. McCabe, of Ohio, is in the city.

Remember in job work that we duplicate Atlanta or Gainesville prices.

Nice lace window curtains from 50 cents per pair up.

J. F. MOORE & CO.

Mrs. Ed. Meaders, after spending some time in Dahlonega, returned to her home at Swainsboro last Sunday.

A certain person made an effort to join the church up at Oak Grove but they would not receive him then. What are churches for?

Prof. B. P. Gaillard, after being in Chicago for some time completing his education in the very highest studies, returned this week.

James Gibson killed a blue crane down on Yahoola creek the other day. He first wounded it and it whipped his dog and then started to fly off again when the second shot did the work.

Last Saturday afternoon a bolt of lightning slightly shocked Col. Charter's little child who was at play in the yard. Dr. Whelchel was at once summoned but the child had about recovered by the time he arrived.

The jury revisors of this county commenced their work here last Monday with all its members present except Mr. J. T. Miller, of Auraria, who is now in Chicago looking after the remains of his son who recently died or was murdered away from home any longer.

Mr. John Stringer, who bargained for the Will Logan place in White county recently, gave the owner \$25 to let him off, who has since purchased the Reese farm over in Wahoo district, in Lumpkin county for two thousand and dollars.

Two of the Miss Ownstons from Savannah, Ga., came in last Monday and will spend a month for their health at the residence of Mr. A. F. Whelchel. Dahlonega is a delightful place for summer visitor, and there is room here for more who will be well cared for.

It is reported that during a quarrel between John Chatten and his brother Jess the other day in this county, the former shot the latter twice with a gun. Once in the thigh and the other hand entered his back. Whether the wounds are serious or not we are not able to say.

Lient. Fred Price was first elected or recommended by the board of trustees of this institution but the war department said that he had to be in service five years before he could hold such a position, and he liked one year only.

Coley Collins and Sam Lingefelt, residing at the foot of the Blue Ridge, were brought in by U. S. Deputy Marshal Grizzel last Monday, charged with blockading. Mr. Lingefelt generally wears a Prince Albert coat when he comes to town but he didn't have it on this time. They were bound over.

We learn that the so called educational rallies, now going on in this county are not very largely attended—the first was held at the Glenn school house and we are told that not more than a dozen people outside of the pupils were there. The acts of the board of education in paying a man two dollars per day to make speeches is receiving a good deal of criticism.

The report got out that eleven preachers would attend services at Mt. Airy, in Union county, last Saturday from various parts of the country and the whole hill was covered with people, who traveled for miles to hear them, but all were disappointed. No divine appeared except young Mike Waters and a great many preachers have forgotten more than he knows about the Bible. The same report was circulated in this county a few Sundays ago about Yahoola church and a young preacher was the only one then to fill the place of the eleven men.

Cabbage at one cent per pound at M. J. Williams.

There will be but very little fruit canned here this year unless finer peaches are brought in than have been yet.

Miss Sallie Thomas, after an absence of several months in Anniston, Ala., returned to her home in Dahlonega this week.

M. J. Williams has just received a new line of different kinds of merchandise from market. Go and examine his stock and prices.

Mr. John Whelchel, of Aincastle, Ala., is up on his annual visit to Dahlonega for a little recreation and rest. He is accompanied by his wife.

Mr. J. W. Adams, paid Dahlonega a visit Monday, who departed in a day or so afterwards with the intention of returning again in about 30 days.

Mr. Joseph Bell, of Atlanta is back on a visit. He is one of Lumpkin old miners and takes delight in coming back occasionally and see the operations going on.

Although we have had several heavy rains recently the ground was so dry from the long drought that the water in the streams here have increased but very little.

Mr. Lee Wild, who has been looking after Cavender's Creek for several months, left for his home at Webster, N. C., this week. Mr. Wild's services are wanted at this time but his wife's sickly condition won't permit his remaining away from home any longer.

The dam for the Gainesville and Dahlonega Electric Railway on the Chestatee river was completed last week. The machinery for the plant is being installed, the poles from that place to Gainesville are about all up, and the stringing of the wires will begin at an early period, and the day is not far off when they will be able to turn plenty of lights on the city of Gainesville so people can see her good works as well at night as during the day.

Last Saturday Col. W. S. Huff went to Auraria to take down the evidence in the case of John D. Palmer vs. Dick Black, both of Dawson county. Col. Howard Thompson represented the former and W. B. Sloan the latter. Some time ago Mr. Palmer became involved and certain property of his was sold and bid in by Mr. Black and others. And now the plaintiff alleges that it was a fraudulent sale and is trying to set it aside, and as more of his witnesses recollect most convenient to Auraria the investigation was held there.

It is not often that two coffins are prepared for one person, but this was the case here last week. As soon as Mrs. Franklin died, as her husband was buried at the expense of the county, it was believed that the wife would have to be also, and Mr. G. McGuire an undertaker, was instructed by some authority we suppose, to have the grave dug and prepare to bury the old lady. But after the former had been done and the coffin and box prepared, her son, David Franklin, said that he would look after this matter himself, stating that he would pay for the work on the grave and got a coffin from undertaker Stow.

There is more complaint by some about their names not being in the jury box than ought to be. The revisors have to go by the tax digest and frequently mens names are listed, but the names in this county are on both the insolvent tax digest and the jury list. This ought not to be. If a man does not take enough interest in his state and county to pay a dollar poll tax he is not likely to make a good juror. There are some instances of men over age who have either donated their property to their wives or got rid of it in some other way in order to draw an indigent pension, whose names do not appear on the digest at all and the commissioners miss finding them.

Mr. J. A. Howard brought to our office this week a large and peculiar shaped tomato, grown by Mr. F. V. Moose. Three tomatoes grown together and weighed a pound and three fourths. The front presented a solid appearance, yet a little defective in shape while the other side showed three different tomatoes, already decaying and won't last long. This to me reminds us of the combination that is being formed between the republicans, dissatisfied democrats and office seekers in Lumpkin. They try to present a solid front in their alliance but in this organization are like the tomato, defective and won't last long.

Judge Murray is back again shaking hands with his friends here.

A little child of Mr. James Woody died in this county last Monday.

Walt Jenkins and James Edmonson got on enough corn since Tuesday night to get into the lockup. A small fine was the result.

During the colored association meeting here last week, Mr. Carroll will keep a eating table in Mr. Blaskstock's yard near the church where you can be fed cheap for cash.

Judge Huff, who is superintendent for the Briar patch Co., and expects to commence work on the ditch soon, has had applications by 45 persons up to date wanting boses places.

Savannah Hamilton went down to Winny Jefferson's the other day and raised a row. The result was her husband had to pay a fine of five dollars and cost on account of the way she used her tongue.

A great and good meeting has been in progress at Oak Grove church, about four miles from town for several days. Twenty-five or more accessions have already been made to the church.

Every week a number of persons have been going up to Porter Springs from Dahlonega to attend the dances, but this place will not likely be represented there this week till the camp meeting closes.

The weeds and briars in the cemetery at this place cause it to have bad appearance. Can't enough money be raised among our citizens to clean it out? We will go our mite, and will start it with a dollar. Who next?

If some provisions are not made soon to enlarge the cemetery at this place poor people will have to be carried off some where in the country interment. It is one of the oldest cemeteries in the whole country and needs attention.

A fellow brought in a good quantity of corn liquor and ten gallons of brandy last Wednesday for "camp meeting purposes."

A few got some of it and went up to meeting while others remained at home and went to the cabarets.

In January during the big snow John Worley picked up his gun and went off hunting, and hadn't been in Dahlonega since until one day last week he came walking into town with his gun on his shoulder. Quite a long hunt.

Nice arch top mirrors 25 to 75c. Reform curvy combs and scraper combs, best yet 5c. Pearl lamp chimneys best made 10c. Baby lace caps 10 to 25c. Best stock and chicken powders on the market.

B. R. MEADERS & SONS.

The NUGGET office "devil" has one of the finest patches of corn in the office lot we have seen this year. It is large and tall some of it measuring twelve feet and ten inches. So this proves that corn grows for the "devil" as well as any one else.

Up at Oak Grove church some boy was arrested for shooting a pistol near the house during services. We do not learn his name. When arrested the little gun was stuck down in one of his socks.

The little fellow cried to the sympathetic brethren turned him loose.

Mr. J. A. Howard brought to our office this week a large and peculiar shaped tomato, grown by Mr. F. V. Moose. Three tomatoes grown together and weighed a pound and three fourths. The front presented a solid appearance, yet a little defective in shape while the other side showed three different tomatoes, already decaying and won't last long. This to me reminds us of the combination that is being formed between the republicans, dissatisfied democrats and office seekers in Lumpkin. They try to present a solid front in their alliance but in this organization are like the tomato, defective and won't last long.

Fruit jars and jelly glasses for sale at E. S. Copelands.

The blanks for the confederate soldiers have been received at the ordinary's office and ready for use.

While some attend the camp meeting this week others remain at home and enjoyed themselves better.

Dahlonega has a number of summer visitors and by the proper management next season can have the town full.

One of the public wells has been cleaned out and put in tip top shape this week ready for use by both man and beast.

We regret to learn that Mr. Joseph Christopher's son is very sick with typhoid fever out at Grace, in this county.

Mrs. Mollie Blair, of South Carolina, is back to the place of her childhood days to spend a short time, registered at Hall's Villa.

The contest between Mr. Davis and Mr. John McGee for the teaching of the public school at the Long Tabes resulted in the selection of the former by the parents recently.

West Stancll came down last Tuesday to tell us that the report of his marriage is a mistake. West is a nice, clever fellow and ought to be, especially where there are so many good looking ladies wishing for a husband.

A revival has been going on at Macedonia church a few miles above Dahlonega for several days. Services are held at 11 a. m. and 4 p. m., giving the evil doers but little chance to get in their work as they would if night services were held.

The trustees of the N. G. A. College by good management have reduced the expenses of the institution \$800 a year, and yet many beneficial improvements have been made. And an hour more attention given to Latin a week than at the State University.

It seems that some of the ministers here dread death about as bad as any one else, not being willing to visit the sick people near the cemetery for fear of taking the fever. And yet they will go to church and sing at the top of their voices, "How I long, oh how I long to be there."

The two cases of typhoid fever at Last Chance shows that there is some local trouble out there. The house is within thirty or forty steps of the cemetery and we are told that a greasy serum rises on the water in a short time after it is drawn from the well, causing the attending physician to instruct them to use no more water from it.

Last Friday up at Frog Town school house in this county four women of the immediate neighborhood met there during school hours and had a rally right. They quarreled worse than men and came near hitching. The teacher, Mr. Fleming, is opposed to this kind of instruction and gave all parties concerned some good advice if only taken.

The indications are now that they will have a better meeting at the Dahlonega camp ground this year than last, or at least there will be more preachers. Already the Presiding Elder and two other visiting divines have arrived and others may come. Now, if the young people will give and attend services and not keep the road hot running the stock to death between here and there some good may be expected.

Shot Gun Walker killed a large rather one day last week after making a step to tramp on it, causing it to burst and ready for business. And on Sunday afternoon Smoking Jim Anderson killed another large one in his yard while making his way to the house. Coming in contact with these poison serpents has brought about a change in these two men. Shot Gun went to church the first opportunity and both will be at campmeeting.

## An Advertising Tour.

Milledgeville News: We notice in the Argus that the Jackson (Ga.) merchants advertise all the year round in half and full-page spaces. We investigated Jackson a little further and we learn that there are now six brick stores and many other buildings in course of erection. You may say it is just an accident, but it never fails—when you see a town whose merchants advertise extensively you will find there is plenty of trade, improvements and new comers in that town, and there is plenty of business to keep busy. You can look over the papers of any town in the world and correctly size up the town. It never fails.

### Who Supposed Atlas.

Joseph Jefferson, asked by one of his little friends to hear him recite his lesson ancient history, put this question:

"Who was Atlas?"

"A giant who was supposed to support the world," answered the child.

"Oh, he supported the world, did he?"

"Yes sir."

"Well, who supported Atlas?"

The little fellow was nonplussed for a moment, but after a little thought said:

"I guess he must have married a rich wife."—New York Times.

### TICKET

Nominated by the Democratic Primary June 5, 1902:

For Representative, G. D. BRUCE.

For Clerk Superior Court, JOHN H. MOORE.

For Sheriff, J. M. DAVIS.

For Tax Receiver, J. L. HEALAN.

For Tax Collector, E. J. WALDEN.

For County Treasurer, J. B. BROWN.

For County Surveyor, V. R. HICKS.

For Coroner, D. C. STOW.

Money for Old U. S. and Confederate Stamps. Look over your letter stamps and see if you haven't a few here and there. Look around in old boxes, desks, and trunks in the garret and other places, you may find a few. Write us a description of the stamps, and we will call and pay you a fair amount and make you a cash offer; if stamps are salable, and if they are not we will return them. Don't take the stamps from the envelopes, but send the envelopes with stamps intact.

**JOHN HOWARD,**  
Dahlonega, Ga.

### ANALYZING THE SOIL

#### Method by Which Farmer Can Do This Himself.

**MR. McCANDLESS' LETTER.**  
Farmer Can Tell Whether His Soil Needs Lime, Phosphoric Acid, Potash or Nitrogen as Does the Chemist.

Referring to the statement in my last letter, that if any one element in a soil essential to plant growth be lacking in an available form, then that soil cannot produce a good crop, no matter how rich the soil may be in the other essential elements. You naturally exclaim then, why not have a chemist analyze the soil, and tell the farmer what element or elements are lacking in his soil and what are abundant, so that he will know how to fertilize—whether he ought to apply acid phosphate, or kainit, or cotton seed meal, or lime, one all, or to his land, so to get the best results, and at the same time use the wisest economy in the purchase and application of fertilizers. Yes, this is a very natural idea, and it was at one time, in the earlier days of agricultural science, thought that by means of a chemical analysis of the soil, that the key had been found by means of which we could unlock the secrets of Nature and solve all the problems of practical agriculture. It was found, however, on trial, that this idea, so beautiful in theory, did not work well in practice. It was discovered, for instance, that a soil which was producing poor crops contained one-tenth of one percent of phosphoric acid, or, calculating to a depth of nine inches, about three thousand pounds of phosphoric acid per acre, and yet this soil was in need of phosphoric acid, because when acid phosphate was used on it as a manure it responded with largely increased yields. Evidently the phosphoric acid in this soil, although abundant in quantity, 3,000 pounds per acre, was not in a condition available to the plant, notwithstanding the fact that acid phosphate was used on it as a fertilizer.

Elements Soluble in Acids Not Always Available.

Still when the chemist came to treat this soil with a strong chemical acid, he dissolved the phosphates in it readily. Thus, it would happen that a chemist analyzing a soil and finding in it, say, 3,000 pounds of phosphoric acid, 5,000 pounds of potash, and 4,000 pounds of nitrogen per acre, and knowing nothing else about the soil, except the results of his analysis, would report that the soil was in need of acid phosphate for producing good crops, and was a good soil, not in need of fertilizers, when, as a matter of fact, the soil might be so poor as hardly to "support peas." After many trials and efforts to imitate the action of Nature in the laboratory, the conclusion was reached that it was not possible to use a chemical analysis, for the sake of determining whether a soil was in need of a fertilizer one or not, or what particular elements should be added to it for the production of full crops.

Analysis Shows the Ultimate Resources Available.

In applying the fertilizers observe the following procedure: Select each square foot of the plot to which it is to be applied broadcast, using your best care and judgment to distribute the fertilizer evenly over the entire plot. In order to get an even distribution it is best to sow in such quantity that you will have to go over each plot at least twice to get all the fertilizer distributed. Take care not to walk across the plot when sowing, as it may blow some of the fertilizer on to the adjoining plots. After sowing, harrow the ground, and then it will be ready for you to plant.

Plant thick enough to insure a perfect stand, and at the proper time thin out to a uniform stand. Treat all the plots exactly the same, except for the case of cotton, which is treated differently. In the case of cotton, plant the cotton all at the same time, and always cultivate the same and at the same time each day. Take pains to have the same number of plants in each row. It will be well to keep a notebook with a page for each plot, in which to record your observations.

In this book record the following: for fertilizer applied to each plot and the amount applied, on the pages set apart for the respective plots from 1 to 10, 20. Note down the date the cotton was planted. Note the date cotton came up in each plot. When the cotton is about two inches high on the plot containing no fertilizer, note the height and weight of the cotton in each plot. After you have thinned twice to a uniform stand record the number of missing plants, if any, in each plot. Of course use every endeavor to have the same number of plants in each plot, but in case of accident to some, be sure to put down the number missing in any plot so as to make allowances. Observe any difference in the growth of the crop for different plots, such as the comparative dates of blooming, number of bolls to the stalk, date of opening of the plant, etc. Keep the seed cotton from each plot to itself, weigh it by itself, and record the weight of the seed cotton from each plot and the number of plants sown on top of the others. When you have picked and weighed the last pound of cotton, then you will, I think, easily be able to decide for yourself what fertilizer or combination of fertilizers your land requires. Of course, if you have a bad season, very dry or very wet, you will not be able to repeat the experiment another year. In this way you can analyze your own soil, and do it better than the best chemist in the world can do it for you, because you have appealed to the soil itself, you have spoken to it in the language of Nature, and it has replied in the same mute, but eloquent tongue, demonstrating the truth of her answers before your very eyes. Yours truly,

Method by which the Farmer May Analyze His Own Soil.

First, select a piece of ground as level as possible, so that rain may not wash the fertilizer off. Then prepare to an adjoining plot. Secondly, for purposes of the experiment mark off plots, each one just one-tenth of an acre in area. If convenient, make the plots long and narrow, say one hundred and thirty-six feet long by three feet wide; these dimensions would enable you to have eight long rows, four feet apart, and twenty-four other short rows of plot with number one at the head of the plot, so that they shall each contain one-tenth of an acre, or 4,365 square feet. Separate the plots from each other by paths, at least three feet wide, so that

the effect of fertilizer in one plot may not be felt in an adjoining plot. It would be well to locate these experimental plots on some of your poorest land, or that which stands most badly in need of fertilizer. When all is ready carefully number the plots from 1 to 10, 20, etc., according to the kind of the nature and amount of fertilizer applied on each plot. Let us suppose that you decide to plant cotton on the ten prepared plots for the purpose of finding out what fertilizing constituent is most needed by your soil when growing cotton. Plant the cotton in your usual manner, after a careful preparation of the soil of the plots, thoroughly plowing and harrowing the plots under. Then apply the fertilizers as follows:

No. 1—No fertilizer.

No. 2—143 pounds of cotton seed meal.

No. 3—200 pounds of 14 per cent acid phosphate.

No. 4—No fertilizer.

No. 5—300 pounds of acid phosphate and 143 pounds of cotton seed meal.

No. 6—143 pounds of acid phosphate and 80 pounds of kainit.

No. 7—143 pounds of cotton seed meal and 80 pounds of kainit.

No. 8—200 pounds of acid phosphate and 80 pounds of kainit.

No. 9—200 pounds of acid phosphate and 143 pounds of kainit.

No. 10—500 pounds air-slaked lime.

In many of our Georgia soils lime is sadly lacking, and it may be just the thing needed by the soil, in conjunction with certain other fertilizers, to discover if this is the case, after having fertilized Plot No. 2, mark off a strip .25 feet in width, diagonally across the plot, running across from one corner to the opposite corner. Apply to this strip 50 pounds of air-slaked lime, and work it in well with the soil and other fertilizer with a rake. Do the same with each of the other plots, omitting Plot No. 10. Then when the crop begins to grow, if lime was specially needed by the soil in any of the plots you will notice a marked improvement in the .25 foot strip which runs diagonally across all the rows in all plots.

In the above fertilizers it is presumed that the acid phosphates is the kind most usually sold, containing 14 per cent of available phosphate acid to the plot.

The cotton seed meal is presumed to contain 14 per cent of nitrogen, as that 143 pounds of it supplies 10 pounds of nitrogen to the plot, and the kainit to contain 12½ per cent of potash, so that 80 pounds supply 10 pounds of potash to the plots the kainit is applied to.

In applying the fertilizers observe the following procedure: Select each square foot of the plot to which it is to be applied broadcast, using your best care and judgment to distribute the fertilizer evenly. Take care not to walk across the plot when sowing, as it may blow some of the fertilizer on to the adjoining plots. After sowing, harrow the ground, and then it will be ready for you to plant.

Plant thick enough to insure a perfect stand, and at the proper time thin out to a uniform stand. Treat all the plots exactly the same, except for the case of cotton, which is treated differently. In the case of cotton, plant the cotton all at the same time, and always cultivate the same and at the same time each day. Take pains to have the same number of plants in each plot, but in case of accident to some, be sure to put down the number missing in any plot so as to make allowances. Observe any difference in the growth of the crop for different plots, such as the comparative dates of blooming, number of bolls to the stalk, date of opening of the plant, etc. Keep the seed cotton from each plot to itself, weigh it by itself, and record the weight of the seed cotton from each plot and the number of plants sown on top of the others. When you have picked and weighed the last pound of cotton, then you will, I think, easily be able to decide for yourself what fertilizer or combination of fertilizers your land requires.

Of course, if you have a bad season, very dry or very wet, you will not be able to repeat the experiment another year. In this way you can analyze your own soil, and do it better than the best chemist in the world can do it for you, because you have appealed to the soil itself, you have spoken to it in the language of Nature, and it has replied in the same mute, but eloquent tongue, demonstrating the truth of her answers before your very eyes. Yours truly,

JOHN HOWARD,  
Dahlonega, Ga.

**ARE YOU WISE?** A great many people suffer through ignorance. They don't know that for all information there is no remedy equal Mexican Mustang Liniment.

### an easy way

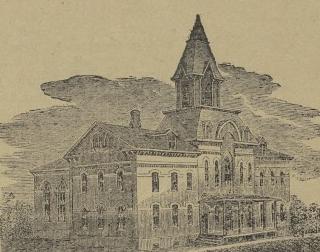

and a sure way to treat a case of **Sore Throat** in order to kill disease germs, and insure healthy throat action is to take half a glassfull of water put into it a teaspoonful of

### Mexican Mustang Liniment

and with this sample the throat at frequent intervals. Then bathe the outside of the throat thoroughly with the Liniment and after doing this pour some on a soft cloth and wrap around the neck. It is a POSITIVE CURE.

**IT MAY BE YOU** have long been troubled with a running sore or ulcer. Treat it at once with Mexican Mustang Liniment and you can depend upon a speedy cure.

### N. G. A. College, Dahlonega, Ga.

In response to a number of recent inquiries from parties asking:

"Where can I place my son (or daughter) so that he (or she) may receive a good education and yet without any great expense?"

The United States Trade Reports, in a recent issue of that widely circulated paper says—

"Realizing the importance of the subject and the confidence which would be reposed in our answer and recommendation we have made a careful investigation of the standing and character of all the leading educational institutions, and with due respect to many that offer good advantages, we must concede our preference for the North Georgia Agricultural College, at Dahlonega, Ga. This college is conducted on the co-education of sexes plan, and it offers exceptional advantages, and at prices especially arranged for students of limited means.

"The courses of study are broad and liberal and embrace every requirement of modern education, refinement and culture. The faculty is composed of instructors especially qualified in theory and practice to teach, and one of the features of the work in this college is the attention bestowed upon the individual development of the pupils.

"The buildings occupied are large and commodious and every facility and convenience is provided for the pupils. The living apartments are neatly furnished, while the table menu is selected and prepared from the best of country produce.

"The laboratories, library and recitation rooms are provided with every essential requisite to the proper study and explanations of the lessons taught. Military discipline prevails at the college, and its entire tone and influence, moral, social, religious, educational and physical is all that could be asked by any parent solicitors for the welfare of his child, while the climate in which Dahlonega, Ga., is situated is always of a character that is invigorating and healthful to the best degree.

"Therefore in view of these carefully ascertained facts we have not the slightest hesitancy in recommending the North Georgia Agricultural College to those who have requested this information, to whom we would respectfully suggest that for further and detailed information regarding this model college and its most admirable system and method of education, they write its President, Joseph S. Stewart, A. M."

"The North Georgia Agricultural College is prosperous, and is doing a work unsurpassed perhaps in importance and value by any other institution of learning in the South."—From Governor Candler's Message to General Assembly.

### The Happy Long Ago.

From the Chicago Record-Herald.  
They tell us of the good old times—  
The happy long ago—  
Alas! the world today is filled  
With nothing much but woe!  
Back in the blissful, lovely days,  
When all things were so nice,  
No icemen's wagons rumbled,  
And the people had no tee.  
Back in the happy, happy days,  
When people were so blest,  
When life was worth the living and  
The world was at its best,  
Men didn't turn the facets on—  
When they went home at night,  
And plunge as we plunge into tubs  
All smooth and clean and white.  
The good old days, the fair old days,  
Ere avnings had been made,  
How sweet it must have been, when it  
Was ninety in the shade.  
To sit beside a window where  
The sun was shining through  
While from unspinkled streets the  
dust  
In choking volumes blew!

How glad they must have been who  
lived.

In those old, happy days,  
When everything was done by hand  
In good, old-fashioned ways,  
When smoky candles pierced the gloom  
And babies yelled at night  
Because there were no safety pins  
To give their souls delight.

Ah! happy, happy days long past,  
When all the world was gay,  
Ere window screens had been devised  
To keep the fliesaway,  
When people slept on corded beds  
And their visions rare  
While glad mosquitoes took their fill—  
What happiness was there!

S.E. KISER.

### TRACY KILLED HIMSELF.

The Notorious Outlaw Takes  
His Own Life, Rather  
Than Submit to  
Capture.

SPOKANE, Wash., Aug. 6.—Harry Tracy, the notorious outlaw, who with David Merrill escaped from the Oregon penitentiary at Salem on June 9, after killing three prison guards, killed himself early this morning after receiving three wounds from a rifle of one of the posse in pursuit. Tracy was surrounded in a wheat field near Fellows, a station on the Washington Central rail-road, about fifty miles west of Spokane, last night. Word was sent back to Davenport, the county seat, and a large number of armed men hurried to the scene. The posse, under Sheriff Gardner, opened fire on the outlaw, and one bullet pierced his right leg between the knee and thigh. About twenty minutes after being wounded he shot himself with one of his revolvers, and his body was found this morning after daybreak.

### RECORD OF THE OUTLAW SINCE HIS ESCAPE FROM PRISON.

June 9—Harry Tracy and his brother in law, David Merrill, escaped from the penitentiary at Salem, Oreg., killing three guards and wounding a convict who tried to stop them.

June 10—Held up J. W. Roberts, near Salem, getting food and clothing; stole two horses and rode toward Portland; held up two members of pursuing posse and took their horse and buggy.

June 11—Fired on pursuers from ambush, near Geryas, and made their escape.

June 12—Surrounded by 250 members of the Oregon militia, but broke through cordon in night and made their escape.

June 14—Stole two horses near Oregon City and rode through the suburbs of Portland.

June 15—Forced two boatmen to row them across the Columbia river, landing in Washington 5 miles above Vancouver.

June 17—Had an exchange of

shots with a posse at Salmon creek, but escaped unharmed, and at Ridgefield stole two more horses and continued their flight.

June 26—Near Lacenter robbed the house of a ranchman who was at church, taking clothes and \$20 in cash.

June 25—Stole breakfast of a farmer near Kelso.

June 26—Took two more horses.

June 29—During the night the convicts slipped through a strong posse guarding the road near Chehalis.

July 1—Both men seen on the Northern Pacific tracks at Tenino, 9 miles from Tacoma. Hero trace of Merrill was lost.

July 2—Tracy held up six men in eating house near South Bay and forced four, including Captain Clark, of a large gasoline launch, to take him to Seattle. On the way he told the crew that he had murdered Merrill. Landed at night near Seattle.

July 3—Tracy was cornered at Bothell, 6 miles from Seattle. Killed Deputy Sheriff Charles Raymond, of Snohomish county, and deputy sheriff "Jack" Williams, of Seattle; wounded Captain Anderson, a newspaper reporter. Returning toward Seattle, he was surrounded while eating supper in a suburban residence. He killed Policeman E. B. Breeze and Neil Rawley, a game warden. Sheriff Cadilue fired two shots at the convict, but missed. That night Tracy slept in a cemetery.

July 4—Stole a horse and buggy at a farm house near Ballard. Slept and rested in the woods during the day.

July 5—Compelled a boy at Madison Point to row him across the sound to the Meadow Point. Bound and gagged a farmer and his family and spent the afternoon reading the papers, sleeping and eating. Forced hired man to row him across the sound.

July 6—Spent the day in the woods with the hired man, resting.

July 7—Going along track toward Renton. Tracy met friends. Hired man was left tied and blindfolded.

July 8—Surrounded by fifty deputy sheriffs near Renton, but gave them the slip and put on camouflage pepper in his tracks, throwing hounds off the scent.

July 9—Held up a family at Kent and sent the farmer to town after a new revolver, ammunition and provisions, which he got.

July 10—Exchanged shots with guards near Convington and escaped.

July 11—Fired upon more deputies near Sluice creek and escaped.

July 12—Held up a rancher near Auburn, taking the man's revolver from him.

July 14—David Merrill's dead body found in the woods near Chehalis. Tracy had shot his partner in the back and neck.

July 15—Tracy believed to be in a cabin near Black Diamond. House surrounded, but convict had left several hours before.

July 17—Failure of Oregon officials to pay the promised reward for Merrill causes practical abandonment of hunt for Tracy.

August 3—Tracy is discovered near Creston, Wash., and surrounded after a fierce fight in which two bullets entered his leg.

August 6—Seeing no chance of escape, early in the morning the outlaw commits suicide by shooting himself through the head.

### A Negro on The Negro.

W. W. Lulas, a negro preacher who is field agent of the Negro Young People's Christian Education Congress, has been preaching to large congregation of negroes down in Mobile. Here are some things he said to the colored brethren:

"I have decided that the only way to get rid of the 'Jim Crow' car is to get rid of the 'Jim Crow' negro.

"If I could use 200,000 bars of soap on the unwashed negroes that travel on trains and hang around depots I would solve the negro problem about 20 per cent.

"Lazy, ragged barefooted fels lols longing for silver slippers and long white robes and counting themselves worthy, neglecting to provide a home for their families on earth and yet claiming a home not made with hands in God's heaven!

"The white man is trying to make this earth blossom as a rose, and the negro is getting ready to die!

"The white man is organizing business enterprises and the negro organizing societies to turn out at their funerals! Now, I object to a hundred dollar funeral for a 50 cent negro!

"The negro eats up and dresses away all he makes. One square meal on Sunday sweeps away all the wages of the week. He reminds me of a mule which ate up the shipping tag from his leg.

An old negro exclaimed: "Gee! did mule done et up whar-he's gwine,—"That's the way the negro does. He eats up his living."

This sort of talk may not make the Reverend Lucas especially popular with his race, but he is a better friend to them than those who entertain the sons and daughters of Ham with noisy sermons about golden slippers and long white robes.—EX.

Nature paints the leaves of the maple tree red in the fall, and many a man can trace his fall to the time when he painted things red.

### TICKET

Nominated by the Democratic Primary June 5, 1902:

For Representative, G. D. BRUCE.

For Clerk Superior Court, JOHN H. MOORE.

For Sheriff, J. M. DAVIS.

For Tax Receiver, J. L. HEALAN.

For Tax Collector, E. J. WALDEN.

For County Treasurer, J. B. BROWN.

For County Surveyor, V. R. HICKS.

For Coroner, D. C. STOW.

R. H. BAKER,

Attorney at Law, Dahlonega, Ga.

All legal business promptly attended to

Dr. H. C. WHEELHEL,

Physician & Surgeon, Dahlonega, Ga.

Wm. J. WORLEY,

Attorney at Law, AND REAL ESTATE AGENT,

Dahlonega, Ga.

### CITY DIRECTORY

#### SUPERIOR COURT

3rd Mondays in April and October, J. E. Estes, Judge, Gainesville, Ga. W. A. Charters, Solicitor General, Dahlonega, Ga.

Baptist—Services every Sunday at 11 and at night. Prayer meetings each Thursday night. Rev. W.

D. DeWeese, Pastor.

Sunday School at 9 o'clock.

Presbyterian—Services 11 a.m. & 7:30 p. m. except 1st Sunday. Rev. D. J. Blackwell, pastor.

Sunday School at 9 a.m.

# THE NUGGET.

DAHLONEGA, AUGUST 15, 1902.

Entered at the Dahlonega, Ga., Post Office as Second Class Matter.

Official Organ of both City and County.

FOR GOVERNOR,  
HON. J. M. TERRELL,  
OF  
MERIWETHER COUNTY.

The game law as to shooting doves goes out to day, Friday.

Edward the VII was crowned king of England last Saturday.

The democrats of Tennessee elected their judicial ticket last week by 30,000.

Fully 9,000 persons attended the Confederate veterans reunion at Greenville, S. C., last week.

Mr. A. B. C. Dorsey, undertaker, who has buried hundreds of people, died in Gainesville last week.

Cabbage couldn't be sold at any price last week in Gainesville on account of the crowded condition of the market.

The thousands of negroes attending the congress in Atlanta last week caused her to present a black appearance.

Acid was placed in the face of Tracy to destroy the features for fear some one might steal the body to place on exhibition.

Booker Washington, the only negro who ever dined with the president has been down to Atlanta attending the Negro Congress.

Of the 42,000,000 pennies that were received by the minor coin division of the United States treasury in New York in 1901, over 117,000 were counterfeit.

An insane woman near Charlotte the other day committed suicide by tying a handkerchief around her neck, fastening it to a trunk strap and hanging herself.

Atlanta was visited last week by G. W. Lee, the 315 pound negro preacher from Washington City. Won't it take a big pair of wings for the negro in case he needs them?

The corpse of Harry Tracy, the outlaw, was stripped bare of clothes by relic seekers at Deweyport last week. Even many locks of hair were cut from his head by what may be termed foolish people.

We advise the educated negroes to go North. Up in Boston a negro was sent to the house of correction for two months for attempt to rape, where as in the South he would have been lynched. Go North bad negroes, and let the good negroes stay in the South. Very wise says the Statesboro News.

The closing out of the Isabella copper mine at Ducktown has effected the country for many miles around. More than three hundred hands are thrown out of employment, a number of them being from Lumpkin county. The damage suits were coming in too thick and fast to suit the company and it decided to quit business.

Some pretty "salty" speeches were made at the negro congress in Atlanta Friday. R. E. Jones of New Orleans declared that the time had come when it was not for the white man to decide the policy of this country, but for the negro. "If the white man won't help us we will make him. It is no longer for the white man to say. It is for the negro to say, say he will. If the white man does not extend to us the helping hand, we will force him to it." Preacher Bray, of Athens, Ga., another negro in his talk said that if the white man would co-operate with the negro in lawfully executing criminals and hunting them down the negro would go to the very mouth of hell to protect the women of this country. Of course this is all wind work and is not worth considering.

## The Republican Meeting.

The republican rally Saturday at this place was a much smaller affair than was expected. Instead of being a public meeting for the purpose of instructing people into the "mysteries of the order," the 29 present sit with closed doors while the office seekers stood on the outside waiting and watching for the crumbs to fall. Capt. Ingorsoll, Judge Britton and other most prominent republicans were absent and took no part in the meeting whatever.

Knowing that one of the Signal's representatives was on hand, acting as its secretary and being told by a member of the executive committee that it was a public meeting, caused us to go up, but it was not long after a consultation between the conductor, engineer and fireman of the concern till all parties except lilly white republicans were requested by chairman Ben Anderson to vacate the hall. An Uncle Mart Hashaw, an old gray headed negro, who has spent all his life in promoting the interest of the republican party, was asked to retire.

As soon as the meeting adjourned we were told that only two parties were endorsed for an office, being Mr. West Stancil for sheriff and Rev. J. W. West for tax receiver, both republicans. Other applications were sent in for office by different members of the party which are yet under consideration. One of them being Mr. James Waters, of Nimblewill district, who sent word that he would run for the legislature if endorsed. Johnnie Cochran, same district, was also mentioned for tax collector. So was Mr. Joe Wilkins, or Yahoobee district, but it is said that can neither read nor write and was turned down for incompetency. For Clerk of the Superior Court the name of young Mr. Asbury now located in Atlanta who has not even registered nor never paid a state tax in Lumpkin county. Yet he is a nice clever young man. During the meeting a man was sent out to request Mr. W. C. Thomas to run for treasurer, telling him that he needn't go round, but M. Thomas declined.

In this move the republicans have no hope of success but are doing it just to keep the "order" together, trusting that some day one or two of them may be rewarded by a little piece of government pie.

Among the party we noticed two or three who were in high spirits. They had something to hope for, being a government pension under a recent act of congress which allows deserters in the confederate army who left their country in time of need and crossed the line. They could afford to look pleased.

Notwithstanding all this, if the republicans have any notices and proceedings they wish published in the Nugget we will do as we have always done—print them.

The private mass meeting of the 29 republicans who met at the court house last Saturday will long be remembered. Among this small number men were present who couldn't neither read nor write and several who cannot vote on account of being tax defaulters, helping to make a political map for the 271 others residing in the county to go by. Really one intelligent member got up and left before the "business of the meeting" closed.

A dispatch from New York states that a well known Long Island revivalist hurled a burning lamp at a boy who had been throwing stones at the congregation the other night.

Last Sunday night a cloud burst at Madison, N. J., uncovered about 75 caskets from a cemetery and many of them were swept from the graves.

Mr. Richardson Dodson was killed in a church last Sunday, near Americus, Ga., by a bolt of lightning, seriously injuring several others.

## Revised Jury List.

We commence this week the publication of a list of the jury recently revised in this county and will continue from week to week till all the names in the jury box are given:

### AURARIA DISTRICT.

Arrandale Augustus M.

Grand Jurors will be found marked thus \*.

[To be continued.]

### Grand and Special Jurors.

The following is a list of the grand and special jurors drawn by the jury revisors last week to serve at the October term of Lumpkin Superior Court:

#### GRAND.

H. T. Lee,  
W. T. Dowdy,  
J. E. Blackburn,  
W. B. Fry,  
W. B. Boyd,  
H. F. Anderson,  
Josiah White,

H. L. Pierce,  
S. J. Harbin,  
J. A. Hollifield,  
G. G. Evans,  
W. P. Gillispie,  
O. B. Stephens,  
J. E. McGee,  
H. D. Ingorsoll,  
J. A. Abercrombie,  
W. J. T. Hutcheson,  
C. N. Fitts,  
W. W. Sullivan,  
E. E. Crisson,  
F. G. Jones, Sr.,  
J. B. Stringer,  
J. M. Brooksher,  
R. L. London,  
R. W. Walker,  
M. J. Williams,  
J. F. Sergeant,  
J. L. Gamlin,  
J. F. Tiner,  
A. C. Barnes,

### SPECIAL.

F. M. Turner,  
A. N. Poor,  
D. C. Stow,  
J. L. Grizzel,  
J. W. Miney,  
J. N. Gaddis,  
J. W. Jones,  
J. L. Grizzel,  
R. C. Payne,  
W. E. McDonald,  
J. C. Self,  
J. W. Walker,

Charles Bonaly,  
Noah White,  
L. W. Christy,  
Virge Parks,  
W. G. Campbell,  
J. C. Stargel,  
R. C. Odom,  
W. K. P. Head,  
W. J. West,  
John R. Whelchel,  
Joseph Ridly,  
W. J. Crane,  
W. M. Ash,  
J. T. Miller.

### Public Sale.

I will sell at my residence on August 30, 1902, to the highest bidder 2 mules, hogs, 2 full blood Durham calves, good Deering Mower and steel rake, farming tools, wagons, buggy, 3 seated hack, household goods, merchandise, to avoid moving goods a distance of 40 miles to Bellmount, I have decided to have a sale.

**TERMS OF SALE.** For amounts over \$500 I will take interest bearing notes with good security, due November 1st, 1902.

I must have without fail all that is due me by the day of sale. I am compelled to use the money in my new business.

Thanking my friends and customers for a liberal share of their trade. I am yours truly,

J. F. BENNETT.

Wier, Ga.

### The Wimpy Mill.

The wheat, rye, corn and crusher mills have undergone a thorough repair, and you can have all your grinding of the above grains done there.

J. W. WOODWARD,

Manager.

Aug. 14, 1902.

The mine strikers in Pennsylvania are becoming desperate from the pinch of hungry. For an hour last Monday night bullets flew thick and fast between them and the deputies.

J. W. WOODWARD,

# THE NUGGET.

DAHLONEGAGA, AUGUST 22, 1902.

Entered at the Dahlonega, Ga., P. O.  
as Second Class Matter.

Official Organ of both City and  
County.

FOR GOVERNOR,  
**HON. J. M. TERRELL,**  
of  
MERIWETHER COUNTY.

An exchange asks: Shall wo-  
men ride astride? If they want  
to.

Col. W. A. Hemphill died sud-  
denly in Atlanta Saturday even-  
ing.

An up hill business—running  
for office in Lumpkin county on  
the independent ticket.

Matthew Carter committed sui-  
cide by jumping in his well near  
Logansville, Ga., the other night.

Each candidate for mayor of  
Atlanta feels sure of success. So  
the city will have three mayors.

The vote for the semi in Daw-  
son county last week is as follows:  
McClure 402; Strickland 175; Bur-  
115.

Twenty-four cars of peaches  
have been shipped from Thomson  
by freight and about eight by ex-  
press this year.

Roosevelt and Foraker seems to  
be the next republican ticket for  
the highest position in the gift  
of the people.

Morris Southerner, aged 65 was  
arrested in Albany, Ga., the other  
day charged with assaulting a lit-  
tle eight-year-old child.

If the Signal is such a strong  
democratic paper why don't it say  
something in behalf of the party  
and quit sucking the republican  
teeth?

Blue Ridge, Ga., is to have an  
election soon to determine whether  
the city will create a debt of five  
or six thousand dollars for the  
purpose of lighting it.

Col. R. L. Peck wants the agricul-  
tural department taken away  
from the state university. He also  
wanted the governor's office  
some few years ago but didn't get  
it.

Quite a number of republicans  
say they won't vote for a ticket  
put out by a few behind closed  
doors, and the negroes claim  
they won't. So where are those  
candidates going to get their  
votes?

It is hinted that a candidate  
will come out for the senate from  
Dawson county on the independent  
ticket. What if he does? He won't  
get enough votes up this way to  
even realize himself that he was  
ever in the race.

Preacher C. C. Cray was slap-  
ped in the face by L. R. Winn  
near Lawrenceville the other day  
for remarks he had made about a  
house party given on the camp  
meeting ground by a sister and  
mother of Mr. Winn.

The southern portion of Georgia  
was visited by an electric storm on  
Saturday evening, blowing down  
a number of houses and killing  
one man, many houses were  
struck by lightning and the cot-  
ton crop ruined.

The Atlanta papers didn't say  
whether they liked the Negro Con-  
gress which convened in that city  
recently or not. A negro to stand  
up before the public and say that  
they were going to force the white  
people to do so and so, like one  
did there, was a pretty tough pill  
for the southern people to have to  
take.

The teacher's institute of White  
county recently paid state school  
commissioner Glenn a high com-  
pliment for his "efficient work  
as commissioner" but still the  
county went against him in the  
primary. No doubt Mr. Glenn  
would have like it best had there  
been more votes cast for him and  
a shorter resolution. Votes are  
worth more to a man than resolu-  
tions.

Dahlonega Public Schools  
Open.

The fourth annual session of the  
Dahlonega public schools, (white  
and colored,) will begin Tuesday,  
Sept. 2. The principal will be  
at the school building on Monday,  
Sept. 1st, from 9 to 11 a. m., to  
register and classify new white  
pupils, and to consult with others  
who may be in doubt as to their  
class standing.

New colored pupils will be regis-  
tered by the colored teachers on  
the first day of school.

The books used will be the same  
as heretofore, except that in the  
second grade, Prince's arithmetic  
by grades, No. 2, will be used  
instead of Milne's Elements.

Next year, 1903-4, Prince's arith-  
metic will be substituted in the  
third grade also, and the follow-  
ing year, in the fourth grade.

The text book in arithmetic  
now being used in these grades  
has been found unsatisfactory,  
and this method of making the change,

the author of a year ago by the  
School Board, will not involve  
extra expense to patrons, the im-  
mediate cost of the new book be-  
ing less than that of the old one.

The seventh grade has been  
discontinued, it having been deemed  
inexpedient to maintain the  
grade longer.

The teachers are all too well  
known to require comment. They  
are prepared to resume the work  
of the school with zealous care for  
the highest possible development

in mind and character of the pu-  
pils placed in their charge, and  
solicit the continued whole-hearted  
co-operation and good will of  
patrons and citizens.

Let every child of school age in  
Dahlonega be prepared to enter  
school on the first day and not to  
lose unnecessarily a single day  
during the school year. Only by  
such steady attendance can favor-  
able progress be hoped for.

It is earnestly desired that beginners be  
entered as early as possible in  
September and January or Februa-  
ry, as they cannot be properly  
classified at other times.

Above all, let parents take an  
especial interest in the school  
standing of their children as indi-  
cated by their reports, and see  
that they apply themselves as  
diligently as they should to home  
study. Without such co-operation  
between parents and teachers the  
best results cannot be obtained.

Very respectfully,  
JOEL MANN MARTIN,  
Supt. and Prin.

The populist party of Mississippi  
has disbanded.

Union county shows a decrease  
of over \$8,000.

Mrs. John Drexel, Newport,  
received a check from her husband of  
\$200,000 as a birthday present.  
This lady will never commit suicide.

The democrats of Lumpkin  
nominate their candidates by public  
elections, while the republicans  
nominate their men behind closed  
doors.

The big Pennsylvania miners'  
strike is still unsettled and  
thousands of women and  
children are suffering from hunger  
because the husbands belong to  
the Union and have to stop work  
whenever ordered by its leaders.

As the result of starting a fire  
with kerosene oil at Gering, Ne-  
braska, last Monday, two persons  
are dead, three fatally burned  
and a fine residence destroyed.  
This should be a warning to all  
those who use kerosene to start  
fires in the stove.

**DON'T WAIT.**  
If you knew how SCOTT'S  
EMULSION would build you  
up, increase your weight,  
strengthen your weak throat  
and lungs and put you in condition  
for next winter, you  
would begin to take it now.  
Send for free sample, and try it.  
SCOTT & BOWNE, Chemists,  
407 Main Street, Dahlonega,  
Ga., and 510 Broad Street, Atlanta,  
Ga.

Atlanta has three splendid  
dailies, will soon have another  
elephant for the children, but no  
new depot.

Governor Candler is still  
pardoning convicts. Either the  
jury or governor is wrong,  
to some extent. Which is it?

A silver spoon mine has been  
discovered in Atlanta. A fine one  
was unearthed several feet below  
the surface last week and is now  
on exhibition.

At Carlisle, Pa., a young full-  
blooded Sioux Indian has been se-  
lected as the leader and teacher of  
a brass band of thirty-five persons,  
all of whom except the leader are  
white.

Guy Shelton, another convict in  
the federal prison in Atlanta, while  
it was thought he was taking ex-  
ercise, climbed out of a window  
and escaped, but was captured 12  
miles from Atlanta. The opening  
he squeezed through was only six  
and a half inches broad.

For twenty years William J. Lee  
was a good and prosperous citizen  
of Trenton, N. J., and was at the  
head of a thriving business. Then  
a trust came along and ruined his  
business and his mind gave way  
under the strain. The other day  
he was arrested because of threats  
made by him against State Treas-  
urer Briggs and for throwing  
bricks through windows.

Near Lansing, Kan., they have  
found the bones and skull of what  
is believed to be a prehistoric man  
of the glacial period. The bones  
were found at a depth of thirty-  
five feet below the surface, and  
some of the scientific sharps say  
the man lived as much as 35,000  
years ago. The skull is very  
thick, which no doubt indicates  
that he was a practical joker and  
possibly met his death by rocking  
the boat.—Savannah News.

James Feverly, a saloon keeper  
of Glencoe, Oklahoma, was shot  
and instantly killed by James S.  
McMurtry on a Santa Fe passenger  
train near Glencoe one night last  
week. McMurtry is prominent in  
Oklahoma and organized the first  
Free Homes league in the territory.  
The trouble arose over an  
attempt made by the anti-saloon  
league to prevent a liquor license  
being issued to Feverly. To prevent  
a lynching McMurtry was removed  
to Pawnee county.

Te Nugget and Signal's Politics.

ASLIE Bi Bi Signal said last week, so we understand, that the  
Nugget had nothing to say in behalf of the democratic party until  
after the democratic primary, we give below some of the editorial  
paragraphs clipped from both papers since the first of January as fol-  
lows:

**NUGGET.**

January 3rd: Four years ago  
when we took charge of the Nu-  
get it was our aim to run it  
strictly non-partisan in politics  
and during the entire time have  
not opened our mouth for any  
political party whatever. But we  
have changed our mind as we  
grow older and decided to cast our  
lot from now on with the demo-  
cratic party, and do what we can  
for it in a fair, square and honest  
manner. There are but two great  
parties strictly speaking—demo-  
cratic and republican—and the  
former is our choice. For many  
years we belonged to it and now  
go back to stay for the purpose  
of putting our shoulders to the  
wheel and help push whenever  
needed.

May 9: Gentlemen, matters not  
what is put out by the independents  
and how popular he is, stick to  
the primary. This is a fair way  
and those wanting office stand a  
better chance to get one by going  
into a primary than on the inde-  
pendent line.

June 6: All those who voted in  
the primary must stick to it  
whether they got their choice or  
not. We intend to do it from  
governor on down to coroner  
whether friend or foe. There is  
no use of a primary unless this  
is done, and we participated in  
the election. By this ar-  
rangement we are enabled to im-  
prove the Signal from week to  
week as the patronage will justify.

The Signal, the republicans lit-  
tle trumpet of this county,  
states that they will have another  
sooon. Billy Signal should get  
him a little harp and open it with  
music.

By the most popular and in-  
fluential republicans not attend-  
ing the recent "private mans  
meeting" hero denotes that they  
are going to have but little to do  
with its movements.

We understand that the fellow  
who sent up his name to the little  
band of republican dictators  
recently got blackballed feels  
sore in spots and wishes that he  
had never been born.

Dawson county democrats have  
selected Maj. R. B. McClure as  
their standard bearer for senatorial  
honors. He is a safe man and  
will sweep Lumpkin county even  
if there are 40 independents in  
the field.

We give below an appropriate  
song for the independents to use  
just after the election: If I had  
had die when I was young, I  
would not have had this race to  
run: Chorus: Show pity Lord,  
oh Lord forgive, let an independent  
republican live.

Governor Henry T. Gage was  
last week under arrest by a de-  
tective of San Francisco, who  
served on him a warrant charging  
him with criminal libel, the war-  
rant having been sworn to by the  
proprietor of the San Francisco  
Call. The governor was im-  
mediately released on a writ of  
habeas corpus.

The republicans of this county  
said by resolution some time ago  
that they were opposed to the pri-  
mary adopted by the democratic  
party because candidates had to  
lay their claims before it. Not-  
withstanding this some of them  
voted in the democratic primary and  
a little hand full of them met  
here the other day and those wish-  
ing to run for office had to send  
up their names to be passed upon  
in the "mass meeting" held with  
closed doors.

The Wimpy Mill.

The wheat, rye, corn and crush-

er mills have undergone a thor-

ough repair, and you can have all

your grinding of the above grains

done there.

respect. Furnishing the table with the best  
country affords.

# THE NUGGET

DAHLONEGA, AUGUST 22, 1902.

Joseph Townsend moved to Bessemer, Ala., this week.

Some repairs are being made on the front of the court house.

A new well has been dug on the public school property by the city council.

Bear in mind that the fall session of the N. G. A. College opens September 10th.

Mr. T. S. Littlefield commenced the erection of his new residence here this week.

It is said that a four horse load of blockade liquor passed through Dahlonega the other night.

A meeting has been in progress at the colored Baptist church ever since their association closed.

Mr. and Mrs. W. C. Moore have returned from Floyd Springs after an absence of several weeks.

Miss Lizzie Chapman, of Dewy, Ga., is up on a visit to her brother Mr. J. F. Chapman, who is very sick with typhoid fever out in the country.

The relatives of Miss Roxie Worley request us to return their thanks to the citizens of Dahlonega for many kind favors extended during her sickness and death.

First of the month Mr. J. H. McKee moves down to McKee, in Dawson county, and Mr. M. J. Williams will occupy his stand in the Masonic Hall building here.

Henry Anderson, of this county, was brought in last Tuesday by U. S. Deputy Marshal Grizzel, on a warrant charging him with blockading and bound over by Commissioner Baker.

Mr. John P. Lilly, father of Col. O. G. Lilly of this place, won the fight in the primary for the house in Dawson county the other day. This is a good selection.

A glorious revival has been in progress at Nimblewill church in the western portion of this county for several days, and at least accounts more than 20 persons had connected themselves with the church.

Apple peelers at J. F. Moore & Co's. With one you can peal the fruit, take the core out and eat it up all at the same time in a few seconds, enabling you to prepare many bushels of fruit for the drying kiln in a day.

The Dahlonega attorneys report but little being done at the Superior Court of Dawson county. Only about five or six true bills were returned and Cochran's case, charged with assault with intent to murder was continued.

A certain young man hired a horse and a buggy so he could go out and see his sweetheart in the country the other day. The next thing the horse was coming in without a driver. The occupant of the buggy had been attacked by old John Barley Corn and lost the victory.

City Marshal Harbison requests us to ask all parties having private lots to look after them at once while the cemetery receives its resting. The graves of some of the relatives of the most wealthy citizens of the county have received the least attention causing them to look as bad as if the parties sleeping in there never had a friend in the world. Don't forget this important matter now.

The finest peaches we have seen this year were grown by Uncle Herrington, one of the best and most hard working colored farmers residing in the county, some of them being sent us last Monday. When negroes were allowed in the republican meetings of the county, Uncle Alfred preferred laboring on his farm and for this reason has got something to show for it, while some of the politicians of his color have a struggle to keep buckle and tongue together.

Mrs. R. H. Baker and son are spending a few weeks at Porter Springs.

Mayor Baker of Dahlonega expects to attend the association of Georgia Mayor which convenes in Atlanta in October.

Mr. Jake Howell went home on a short visit to Dalton a few days ago accompanied by one of his uncles, Miss Nellie Wallace.

We are told that a negro recently preached at Phillipi church in this country, but when he again asked permission was refused. A negro in the pulpit of a white church in Lumpkin is something new.

Our esteemed friend, Mr. J. B. Waters, of Nimblewill district, who has a legislative beehive in his hat, was in the city last Sunday to see, we suppose, which way the feather was blowing and ascertain why his application was not properly endorsed.

Another little child of Mr. W. B. Woodward died last Sunday night after a brief illness of whooping cough. It is said indeed to lose one, but when it comes to two in a few days of each other it doubles a grief that is almost unbearable.

A blockader was located near the colored Baptist church Saturday night and seemed to be very well patronized. One fellow borrowed a quarter to give to the preacher but when the hat came round he was gone off after a pint of liquor, having changed his position.

All the summer visitors who have been here this season are well pleased and perfectly delighted with our climate. So next year we should begin in time, advertise the place and tell the health and pleasure seekers of our many advantages and they will be here in large numbers.

The ten or fifteen separation between a man and his wife down on Yahoola creek occurred a few nights ago. The husband becoming dissatisfied with her frequent male visitors decided to carry off his tricks of a very few artificers. This time he carried a lighted lamp in one hand and went off baw boozing like a little child having lost its doll.

A negro and white man were seen together up in the old Master Ground some days ago and during the time the white man embraced and kissed the negro man. He was drunk but this is no excuse. Won't this be joyful news to that congressional committee in Washington who are always grumbling at the treatment the negro receives in the North?

Even preachers have to be watched sometimes. We were told by a friend who was in Dahlonega the other day from White county that a divine wanted to swap a cow for a fine Jersey, and the minister was brought over for the one owning the Jersey to look at, who was not long in discovering that the preacher's cow had been given salt and all the water it could drink so it would look fat and heavy. But when the preacher's attention was called to this matter it was more than he could stand, for he returned home with his salted cow without saying another word.

The following letter received from Postmaster Burt at Bartsboro explains itself. Lost there be another complaint by some subscriber because the NUGGET was not handed out from Bartsboro on Saturday and there should appear in your paper an editorial that cast some reflection on the management of this office, I want to say to you that last Saturday the Bartonsville package of NUGGETS came to this office and I don't know where in the devil the Bartonsville package went. The paper is always given out when called for it is here but I am not responsible if the package goes around by Gainesville or some other place and does not come in on time.

Respectfully,  
W. J. BURT, P. M.

Fodder pulling season is about here.

Mr. W. S. Cavender has moved to Gainesville.

If it's type writer paper you want. We have it.

Do you need any nice visiting cards? If so come to the NUGGET office.

Peaches for canning purposes only bring 40 cents per bushel here now.

In a few more days the blue coated college boys will be back with us again.

Mr. and Mrs. Joe Ricketts are still very sick, and but little change in their condition.

Some colored people, both men and women, serenaded a number of our citizens the other night.

Miss Eye McKee, who has been off teaching school for some months, has returned home.

Mr. F. V. Moose is agent for the NUGGET and authorized to receive subscriptions and money for the same.

A protracted meeting also commenced at Yahoola church a few days ago and several have already professed religion.

Mr. Frank Jones returned home from Tennessee last Saturday owing to the sickness of his child, which has the whooping cough.

If you wish to post your land we have the notices already printed. All you have to do is to sign your name and stick them up.

Mr. F. V. Moose received information last Tuesday that his son, Ned, was down sick at Isabella, Tenn., with typhoid fever.

A small two room house to rent adjoining the NUGGET office to a family not having a house full of children. Apply at NUGGET office.

The Consolidated Co. only furnishes its customers with electric lights just half the night, but we don't know whether the price has been reduced or not.

Capt. J. W. Woodward, the proprietor of the Signal knows how to put an ad. to do him the most good—in the NUGGET, as will be seen elsewhere.

U. S. Deputy Collector Crockett, of Marietta, came up last Tuesday. He did not come for his health or on a pleasure trip, but to pay his respects to some of the mountain blockers.

Mr. J. T. Miller, general manager of the Briar Patch mine, passed through Dahlonega last Tuesday on his way up to the site of the proposed dam at Peck's mill.

There were several bids for the hauling of the furniture for the college dormitory last Tuesday from persons living at different places. Mr. Newt Mays, of Watson, got it at 25 cents per hundred.

There is a very large crowd of visitors at Porter Springs now, but in a few weeks more they will all return to their homes, the hotel will be closed and everything will be quiet and still until next season.

We noticed Mr. Stancil, the new candidate for sheriff, was in this week mixing and mingling with the boys, laughing at their jokes, whether they were funny or not. Candidates have to do this and many other things they wouldn't otherwise.

Last Monday, we understand, that 2,000 pounds of tools were received at the Pyrites mine in this county. This begins to look like business. A boss carpenter also arrived who will superintend the construction of the several new houses that are to be built.

We understand that some parties in this county pay no attention to land that is posted, and go right ahead and hunt and fish on the same. If the owners see proper to prosecute them next court they will doubtless wish that they had, when they are required to pay a fine.

Mr. J. H. Jenkins is engaged in making some valuable improvements out on his farm.

When in town don't forget that Moore Bros. livery stable is the nearest and most convenient one to the square.

Mr. E. E. Crisson is building a house up on his property near the Long Tube and otherwise improving the place.

Mr. John Whelehan and his wife, after spending several days in Dahlonega, returned to Anniston latter part of last week.

If you don't like the NUGGET you needn't take it. And if any of our present subscribers become dissatisfied all they have to do is to let us know.

The sermon at the Baptist church here last Sunday and Sunday night by Rev. Frank L. Ward, of Dixie, was listened to with much interest.

The office devil's corn has grown until it has reached 14 feet, three inches and still continues to lengthen. It is like the NUGGET, growing and its enemies are powerless to prevent it.

The Colored Baptist Association at this place was largely attended by both white and black. The preaching was good and the singing number one. The next session will be held at Cumming.

Coleman Ash of this county, was bound over last Saturday by Commissioner Baker for violating the Internal revenue law, and made bond for his appearance at the next term of the U. S. Court in Atlanta.

Mr. G. McGuire has one of his patent turning plows on exhibition at the fair grounds and is catching the eyes of wide awake farmers. It has been tried this week on the farm and gave perfect satisfaction.

Little Billy Signal, since associating with him in his office a republican and democrat acts as a sewer of the office with perfect satisfaction and will meet with success in this respect if the bugs don't roll him off.

Cols. Lilly and Baker had to have the case of Cochrane, charged with assault with intent to murder in Dawson county, continued last week on account of the absence of witnesses. The defendant made a bond of \$2,000.

Work still continues in our job department, prices as cheap as can be had in Atlanta or Gainesville. We are fitted up to do all kinds of work as neat as the nest. With a large supply of stationery of various kinds we are able to suit you in this line.

Many wells in our city have gone dry which should cause everybody to be careful about fire. Should one break out now, there would be nothing to prevent it from sweeping the town. We trust the time will come when the water works can be supplied with water works.

We overheard a certain republican trying to injure the NUGGET the other day by quoting something Little Billy Signal had said about us. Of course it is natural for them to work for their organ, but it is very poor taste to quote anything he says unless he was more popular and influential.

Mr. Ad Peck came to town last week and brought with him his better half who hadn't been to Dahlonega in 31 years although living within ten or twelve miles of the place. He also brought with him a load of muskmelons and kindly remembered the NUGGET man by presenting him with a very fine one. Thanks.

On Saturday night last Miss Jessie Whitmire was wedded to Paul McDougal, a lad of about sixteen summers, by Mr. Henry McGuire, N. P. Mr. F. V. Moose was one of the few witnesses present who, after the ceremony was performed, gave the happy couple a whole lot of advice, which if carried out will make the rest of their lives very enjoyable. The bride is 27.

Miss Estella Lovelace is lying at the point of death with consumption.

Excellent cheap flour, finest grade in town, at John H. Moores, Call and get prices.

Let us know when you change your address or fail to get your NUGGET regularly.

Rev. Mr. DeWeese has recovered from his late spell of sickness and able to be out again and will preach next Sunday.

Mr. G. W. Bruce has purchased the G. McGuire farm all except two wood lots, for \$1,500 and gets half the rent this year.

Many cattle are dying with some unknown disease in this country. They take sick suddenly and die in a short time afterwards. Mr. John Moore lost a fine heifer this week.

Mr. J. Carter, the well known Carter's Fancy Flour man was up from Gainesville this week and as usual when he comes called around and dropped some silver money in the printer's basket.

Mr. H. Bowen, of White county, was in the city looking halo and hearty last Wednesday. He is 75 or 80 years of age and we are told that he plows every spring—too industrious to be idle.

To-day (Thursday) the Electric Railway Co. shut down the gate at its dam on the Chestatee river, causing a big crowd to go down.

Some of them carried seines to catch big fish below the dam.

Fall and Winter made to order mens suits delivered and guaranteed to fit \$8.50 to \$35.00. This is the first time we have been able to offer first class work at this low figure.

ST. B. R. MEADERS & SONS

Mr. Sharp, of Chattanooga, who used to be interested in mining property in this county, (and may be yet) arrived in the city last Wednesday and registered at Hall's Villa with the expectation of remaining for several days.

Some of the citizens of Dahlonega, who returned from Floyd county the other day escaped being in a destructive cyclone, which visited that section on Tuesday afternoon. At Rome it unrooted many houses. It raged for two hours and the damages were great.

There are 35 persons to be discharged from the state penitentiary or chain gang for the month of September. None of them are from Lumpkin county. Fortunately this county has but few prisoners in the penitentiary or chain gang which speaks volumes for it.

Mr. John Holcomb, who was a citizen of Dahlonega for several years, came in from Gadsden, last week for the purpose of spending a few days in the mountain city to recruit his health. Mr. Holcomb is doing a thriving mercantile business in that city and has been for several years.

Some of our citizens grumble because the city taxes run up to a few hundred dollars annually. Uncle Sam didn't say a word when the appropriations of last congress amounted to \$800,624,490. And yet it was an increase over last session of \$70,285,900. So, be quiet and take the world with more ease.

Dick Gibbs and Geo. Peck were caught in an illicit distillery last Wednesday and brought in by Marshal Grizzel and Collector Crockett and carried before Commissioner Baker, who bound them over in a bond of \$300. They were just getting ready to run it and were making some additional improvements just as the officers stepped in and ordered a suspension of work. Some of the ditch hands met the reporter, who lives in White county, early Monday morning and remarked at the time that some one would "catch it" before a week. He was wet up to his knees with dew. Mr. Peck seems to have had luck in the business, as he has already three cases against him in the U. S. Court which he hoped to be able to settle, but this one added

will make it very doubtful now. Several hands are now at work at the pyrite mine in this county intended for its further development. We understand that a 16 foot shaft is to be sunk. Mr. G. G. Evans is going to move his saw mill on the ground and furnish the company with plenty of lumber. He has a contract now of 50,000 feet. Mr. Pratt, one of the owners of this valuable property was on the ground the other day, leaving a superintendent in charge with instructions to add a large force of hands. A dam will be built across the Chestatee so as to furnish electrical power to operate the works. This means a big thing for Lumpkin county, being an enterprise of much importance to the whole country.

## Mining Notes.

The whistle at the Breymann boat in the Chestatee river can be heard every day showing that they are getting in good time, and is paying handsome profits as usual.

The dry weather is certainly a draw back to the miners and is getting worse. Even the Lumpkin mill which has been crushing customer ore has got so it can't be run.

At the Crisson and Loveless mine they have some good ore and at the Woodward mill but can do nothing with it until it rains, not being enough water power now to do any good.

Mr. James T. Grindle has sent us this week a sample of ore taken from a seven foot vein on his property. This ore contains silver, gold and a soft substance like lead, being very heavy, and its real value is not known yet.

Mr. Packard's mine is running regularly now with splendid results. But this does not surprise any one acquainted with the property for they have long since been convinced that Turkey Hill is one of the best mines in the county.

But little is being done at the Cavender Creek mine. Mr. Wild's contract with the company had expired and he went home with the intention of staying, but he has been sent for to come and superintend it again and is expected shortly.

"Ocetaw" Davis, who is now engaged at the Frey, picked up a two and a half pennyweight nugget of gold the other day. It was long like a wasp and a perfect beauty. Mr. Davis is an old miner and it is a hard matter for either nuggets or fine gold to escape his notice.

The Singleton mill is about the only one running in hearing of Dahlonega. The drought having closed most of them down. But at this mill they have enough water for several of the natives to mine on a small scale. Johnson and Riley seem to be in the lead as their vein is holding out large and paying well.

Roberts and Johnson are still digging away down at the Gordon with slow progress on account of not having water enough to run more than about three hours a day. Notwithstanding this fact it is paying them a small profit now and when it rains enough to furnish them with ample water it will be one of the best paying mines in the county.

Work on the Briar Patch ditch was all suspended last Monday except the surveying which is completed doubtless by this time. Why the work is suspended we do not know but are informed that it will be resumed the first of next month. It may be that arbitrations between the company and some parties through whose land the canal will pass, which take place early in September, is one cause of the delay.

We were shown by Mr. McAfee last Tuesday some fine gold ore that came from the Rutherford property which this gentleman has been developing for some time. It is from four entirely different veins, all showing gold without the use of any glass. The veins average from twelve to fourteen inches. Mr. McAfee also had some coarse gold which he panned out from the binding and some that was extracted from the rock, proving that all the veins are very rich.

Several hands are now at work at the pyrite mine in this county intended for its further development. We understand that a 16 foot shaft is to be sunk. Mr. G. G. Evans is going to move his saw mill on the ground and furnish the company with plenty of lumber. He has a contract now of 50,000 feet. Mr. Pratt, one of the owners of this valuable property was on the ground the other day, leaving a superintendent in charge with instructions to add a large force of hands. A dam will be built across the Chestatee so as to furnish electrical power to operate the works. This means a big thing for Lumpkin county, being an enterprise of much importance to the whole country.

#### FOR SHERIFF.

To the Voters:

At the solicitation of many citizens I now announce my name as an independent candidate for sheriff of Lumpkin county, promising if elected, to fill the position to the best of my ability.

J. W. STANCLIF.

#### BARBER SHOP.

WHEN wanting a nice clean shave, hair cut or shampoo call on Hunter & Underwood, First Street, Dahlonega. They respect next door to McGee's store on main street, where they will be found ready to wait on you at any time.

Also the undivided one-fourth of the mineral interest in lot of land No. 174, lying and being in the 12th District and 1st Section North-half of Lumpkin county, Georgia. Terms of sale cash.

This 4th day of August, 1902.

A. M. ARRENDALE,  
Administrator.

#### A Good Hearted Man,

or in other words, men with good sound hearts, are not very numerous. The increasing number of sudden deaths from heart disease daily chronicled by the press, is proof of the alarming prevalence of this dangerous complaint, and as no one can foretell just when a fatal collapse will occur, the danger of neglecting treatment is certainly a wise and matter-of-fact matter. If you are short of breath, have pain in left side, smothering spells, palpitation, unable to lie on side, especially the left, you should begin taking

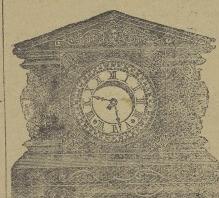

#### Dr. Miles' Heart Cure.

J. A. Kremer of Atlanta City, Georgia, states was so bad it could neither sleep nor rest. My decline was rapid, and I was advised to try Dr. Miles' Heart Cure, which I did, and candidly believe it saved my life."

Dr. Miles' Remedies are sold by all druggists on guarantee.

Dr. Miles Medical Co., Elkhart, Ind.

Affidavit & Bond for Garnishment  
Administrator's Deeds,  
and Attachments.

Georgia, Lumpkin County  
Will be sold before the court house door of the county of Lumpkin on the 1st Tuesday in September next within the legal hours of sale to the highest bidder for cash the following property to-wit:

The undivided one-fourth of the farming interest in and to lot of land number 470, in the district 1st section of Lumpkin county, Georgia. Located on the property of Andrew Hatfield by virtue of and to satisfy a fil. fa. issued from the Justices Court of the 99th District of Cobb, with the due and proper Andrew Hatfield, Levy made and returned to me by G. W. Christy, L. C. This August 6th, 1902.

J. M. DAVIS, Sheriff.

#### Courtroom Humor.

Not long ago Judge Dickey of the supreme court who hails from Newburg, was holding court in Brooklyn. The lawyer for the defendant in the case before him occupied the time of the court by asking practically the same question over and over again. Judge Dickey called his attention to this fact once or twice and finally became provoked and said to the lawyer:

"You have gone over that ground time and time again, counselor. Your questions suggest 'crabs' to me—they always go sideways and do not get ahead—and I do not like crabs."

The lawyer pleasantly replied:

"Well, I am sorry that your honor does not like crabs, and I most respectfully differ with you in that respect, as well as others; for my part, I like lobsters, but I do not like lobsters especially lobsters a la Newburg!"—New York Times.

#### Only a Dog.

A Dutchman was overheard moralizing over his dog as follows:

"You are only a dog, and I wish I was you. When you go mit your bed in you shust turn round three dimes and lay down; ven I go mit the bed in I haf to lock up the blace, and wind up the clock and put out the cat, and undress myself, and my frar vakes up and scolds; den de baby vakes up and cries and I haf to vail him mit de house round; den mene ven I gets myself to bed it is to git up again. Ven you get up you shust streef, dig your neck a leedle, and you vas up. I haf to light de fire and put on de kettle, scrap some mit my wife already and get myself breakfast. You play around all day and haf plenty of run. I haf to work all day and haf plenty of trouble. Ven you die you vas dead; ven I die I haf to go to hell yet."

#### Johnny on Bullfrogs.

The bullfrog is large, green and wary. He can jump several times his length. His voice is loud, but not pleasing. The bullfrog is shy and diffident. He builds his nest in damp swampy places where it is difficult to track him. At the slightest alarm he utters a low, plaintive note and immediately seeks refuge in the water. He is a good diver and can swim like a fish except that he does not wiggle, but kicks.

There was a frog once that blew himself full of air until he burst like a paper sack. This shows the folly of vanity and self-conceit. Oh my friends, let us endeavor not to act in that manner but to be good and truthful. Let us remember that life is short and that we must always be up and doing. Some people like bullfrogs to eat, but I would rather have pie.—Johnny in Saturday Blade.

#### Free Distribution of Seed.

The distribution of vegetable and flower seeds by the agricultural department for next year will be begun on September 1. This is three months in advance of the usual time and the change is made in order to insure complete distribution. Each member of the senate and the house will receive 12,000 packages of vegetable seeds.

#### Still Engaged.

An engaged young gentleman got rather neatly out of a little scrape with his intended. She said she had heard that he had kissed two ladies at some party at which she was not present.

He owned it, but said, laughingly, that, after all, their united efforts made only twenty-one.

The simple-minded girl thought of ten and eleven, and laughed off her pout.

He did not explain that one was 19 and the other 2 years of age.

#### What is Man.

If you think the town or community in which you live just couldn't get along without you, suppose you just take a visit of about six months duration and we will guarantee that it will be an eye open to you. We have known men that were honest in thinking the country would go to ruin, and that very soon, if it wasn't for them living in it some people think if they were to withdraw from the church. This is not the case brother. Think back a few years, this grand old world has been standing six thousand years and you have only been here, say forty years. The church of Christ has been growing for two thousand years and will go on and on, whether you are a member or not. So you see the world and the church stood before your day and will continue to stand long after you are forgotten.

The lawyer pleasantly replied:

"Well, I am sorry that your honor does not like crabs, and I most respectfully differ with you in that respect, as well as others; for my part, I like lobsters, but I do not like lobsters especially lobsters a la Newburg!"—New York Times.

**FOR HARNESS** an' Tackles from President Johnson Liniment is just what you need. It tastes each at once, and you will be astonished to say how quickly it heals sore.

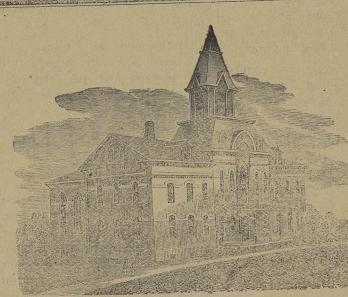

#### It's this way:

You can burn yourself with Fire, with Powder, etc., or you can scald yourself with Steam or Hot Water, but there is only one proper way to cure a burn or scald and that is by using

#### Mexican Mustang Liniment.

It gives immediate relief. Get a piece of soft old linen cloth, saturate it with this liniment and bind loosely upon the wound. You can have no equitable idea what an excellent remedy this is for a burn until you have tried it.

**A FOOL TIP** If you have a limb injured with Bone or any other injury dress it with Mexican Mustang Liniment. It is a wonderful remedy for bone injuries.

#### N. G. A. College, Dahlonega, Ga.

In response to a number of recent enquiries from parties asking:

"Where can I place my son (or daughter) so that he (or she) may receive a good education and yet without any great expense?"

The United States Trade Reports, in a recent issue of that widely circulated paper says:

"After securing the competence, he struggled for a man invariably plans an extension.

If a small boy is chasing a bumblebee and you hear him yell it is a sign that he has caught it.

A Tennessee preacher was one day employing a friend of his to repeat of his sins. "Well said the sinner, "if you will answer one question I will become a Christian." "What is your question?" asked the man of God. "My friend replied the preacher, "I am sure you would make a better Christian if you didn't trouble yourself about other men's wives."

The hog is the mortgage lifter, the sheep the farm fertilizer, the cow the barn builder, the hen the grocery bill payer. This quartet with a man and woman not afraid to work for them, will insure prosperity on any farm.—North Georgia Citizen.

At Orange, N. J., the other day Miss Jane Hillier celebrated her one hundred and first birthday, on which occasion she declared she had never suffered one minute from headache and had been sick only twice, both times very slightly.

Pension Commissioner Ware states that under the new law there will be ten thousand additional pensioners. This will bring the number up to more than a million, and the war has been over for nearly forty years.

There was a man died recently in Chicago, at the age of 30 years, who was eight feet two inches high, and weighed 305 pounds. A half dollar could be put through his finger ring.

More than 700 trees, 12 to 18 inches in diameter, are to be hewed and replanted for shades in the coming world's fair in St. Louis.

One difference between a gun barrel and a whisky barrel is that one kills with a bang and the other with a bung.

(To be continued.)

How Editors Get Rich.

After a great deal of study and

worry we have it at last "figured,"

out why so many editors get rich.

Here is the secret of their success:

A child is born in the neighborhood;

the attending physician gets \$10

the lugged youngster and the "happy

parents" a send off and gets \$80.

It is christened, and the minister

\$5 and the editor gets \$600. It

grows up and marries, the editor

publishes another longwinded

flowery article and tells a dozen

lies about the "beautiful and ac-

complished bride."

The minister gets \$10 and a piece

of cake and the editor gets \$6000.

In the course of time it dies; the doctor

gets from \$5 to \$100, the minister

perhaps gets another \$5, the un-

dertaker gets from \$25 to \$50, the

editor publishes a notice of the

death, an obituary two columns

long, a lodge and society resolu-

tions, a lot of poetry and a free

card of thanks, and gets \$10000.

No wonder so many country edi-

tors get rich.—MONMOUTH INDEX.

Tied Dynamite to His Dog

and Had to Race for Life.

Dritton, Pa., Aug. 20. George

Mechou, of Scalasing, owned a

dog suffering with mange. He

took the dog to the woods and at-

tached two sticks of dynamite and

a long fuse to its neck, and lit the

fuse. He then retreated to a place

of safety, forgetting to tie the dog.

The animal took after Mechou,

who saw it coming, and dashing

away at the top of his speed,

reached his house and closed the

door. The dog, frightened by the

sizzling fuse, took refuge under the

slanty. The building and con-

tent, and the dog, were blown

up in the air, but, miraculously,

none of the family was killed.

#### TICKET

Nominated by the Democratic

Primary June 5, 1902:

For Representative,

G. D. BRUCE.

For Clerk Superior Court,

JOHN H. MOORE.

For Sheriff,

J. M. DAVIS.

For Tax Receiver,

J. L. HEALAN.

For Tax Collector,

E. J. WALDEN.

For County Treasurer,

J. B. BROWN.

For County Surveyor,

V. R. HICKS.

For Coroner,

D. C. STOW.

—

R. H. BAKER,

Attorney at Law,

Dahlonega,

# THE NUGGET

DAHLONEGA, AUGUST 29, 1902.  
Entered at the Dahlonega, Ga., Post  
as Second Class Matter.

Official Organ of both City and  
County.

FOR GOVERNOR,  
HON. J. M. TERRELL,  
OF  
MERIWETHER COUNTY.

A destructive storm visited Ath-  
ens last week.

Fifteen negroes sawed their way  
out of Dougherty's new jail one  
night last week.

A negro lunatic was caught near  
Atlanta the other day from Clay-  
ton county. He was carried back.

The Mary Mine, which shut  
down in Tennessee, recently has  
moved all the machinery there-  
from.

Newton county has "gone dry"  
and those using bitters will have  
to send off for stuff to make them  
hereafter.

The state populist ticket is still  
without any head, and the rest of  
those in it resemble motherless  
chickens.

A mob of women entered a sal-  
oon at Belmont, Tenn., one day  
last week and completely wrecked  
the place.

One of the latest enterprises in  
Dahlonega, Ga., is a matrimonial  
partner. The club claims to have a  
membership of about 200.

The comptroller general and  
governor have fixed the state tax  
rate at \$5.30, 14 cents cheaper on  
the thousand than last year.

The lily white republican vermi-  
fuge now being taken by Little  
Billie Signal, is certainly having  
the desired effect by its manufac-  
turers.

Let the lily white republican  
committee of this county endorse  
their candidates, and trot them  
out, so they will see how far they  
will get left.

Since the democratic primary in  
Dawson county independent can-  
didates have commenced popping  
up their heads, but none for the  
senate yet.

A Kentucky girl has recently  
had 150 offers of marriage. But  
as she is hard to please, she has  
turned them all down and is hold-  
ing over for leap year.

Editor Holder, of the Jackson  
County Herald has been nominated  
and will go to the legislature again.  
Mr. L. G. Hardman will  
be the other member from that  
county.

At Tupelo, Miss., negroes who  
had organized into secret societies  
for nefarious purposes caused a  
race riot last week. They com-  
menced shooting down white men  
which was returned by the others,  
resulting in several being seriously  
injured on both sides.

It is estimated that the coal and  
iron policemen hired to  
guard the mines in Pennsylvania  
number 5,000. The employment  
of so many special guards since  
the strike in that state has necess-  
itated an expenditure to the com-  
panies up to latter part of last  
week of \$1,800,000.

James I. Tindal, an escaped  
lunatic went to the house of Mr.  
L. A. Roach, near Gordon, and  
at the point of a pistol, kidnapped  
a 15-year-old daughter, Miss  
Agnes Roach. He then got a  
mule and buggy from a negro  
and fled with the girl. The  
country is being scoured in all  
directions, searching for the  
couple.

Thomas Hunter, who is now  
serving a sentence of five years  
for the embezzlement of funds of  
the Atlanta & West Point R. R.  
Co., will be a free man on Decem-  
ber 8th, as his sentence has been  
commuted from five to three years.  
His peculations amounted to some-  
thing like \$55,000. The negro  
who stole chickens will remain.—  
Wiregrass Blade.

Cholera has caused nearly  
20,000 deaths in the Philippines.

It is reported that the Florida  
orange crop will be 4,000 boxes  
short this year.

Some scoundrel wrecked a train  
on the Southern road near Toccoa,  
the other night, doing considerable  
damage.

The first primary for thirty  
years occurred in Alabama last  
Monday for governor and the  
state house officers.

In his fight for the control of  
Colorado Fuel John W. Gates  
dropped between \$300,000 and  
\$400,000 on Wall street last week.

Senator Hanna has given up all  
hope of the coal strike terminating.  
He says he has exhausted all his  
power in efforts to bring about peace.

Governor Candler has been at-  
tacked by Rev. Anthony, of Savannah  
because he understood that the  
governor said that Poor Rich-  
ard's Almanac was a better book  
than the Bible.

A bloody race riot occurred in  
Indianapolis, Ind., the other day.  
Two hundred were engaged in it,  
and clubs, stones and bricks were  
used for awhile to perfection, and  
the whites drove the negroes from  
the field.

Judge Hines writes to the popu-  
list and tells them he cannot make  
the race for governor. He claims  
that he was elected in 1894 and  
counted out, and cannot leave his  
business to make a race for any  
office any more.

Mrs. Sarah Shumacher, an aged  
lady and her daughter were too  
proud to let their wants be known  
and the former died of starvation  
in Baltimore one day last week  
and the girl was wandering about  
the room when found dead from  
hunger and grief.

The legislature will have to act  
on recommendations from prison  
commission and governor that  
private misdemeanor and convict  
camps be abolished and each  
county work its own convicts.  
At some places now, convicts are  
not being treated humanely.

The Augusta Herald thinks it  
must be nice to be a Methodist  
preacher. It says: "He has to  
move every few years, and when  
he does, the people say nice things  
about him the same as if he had  
died." And in some cases he  
would have if he had depended on  
his salary.

Dahlonega has a political kite  
now sort of like Joseph's coat,  
made of pieces of various sizes  
and color. The kite is populist.  
Its tail prohibition and republican  
and the cord has a slight taint  
of democracy, pulled by a  
little thing resembling a tree frog  
— changing its color to suit the  
tree in use.

Glethorpe Echo: A farmer of  
this county is this year producing  
twenty-five thousand dollars worth  
of stuff on one acre or a little  
more of ground. This sounds big  
but we saw it a few days since, and  
know it is there. Mr. John W.  
Woody is the farmer, and his crop  
of seoms of newly originated Octo-  
ber peach is the product. On  
an acre or perhaps a little more he  
has 100,000 of these seoms growing  
which will be ready for sale  
and delivery this fall. He readily  
sold about 10,000 of these last  
fall at 25 cents each, and anticipates as ready sale  
for this crop, he having agencies  
established in ninety-two counties  
for that purpose. Mr. Woody's  
friends are gratified at his success  
so far and his prospective fur-  
ther success with his fruit farm  
nursery.

Are you Interested in Your

PENSION  
Commission Wants Roster of  
Soldiers Compiled.

Gov. Jenks is nominated gover-  
nor of Alabama by about 25,000  
majority.

Geo. W. Banzel a federal pris-  
oner, has been received into an  
Atlanta church.

It is stated that the resignation  
of Justice Hal Lewis will soon be  
in the hands of the governor, on  
account of his declining health.

The Augusta Chronicle, the  
oldest daily paper in the state, be-  
ing established in 1785, was placed  
in the hands of temporary receiv-  
er last week.

A report from the department  
of agriculture shows that the crops  
of Georgia are not in such a bad  
condition after all. Affairs are  
much better than first supposed.

Carrie Nation, the sib of bar-  
room smashing fame, is anxious to  
visit Atlanta during the fair and  
deliver one of her smashing lectures.

A negro named West Turner  
assaulted Mrs. Early, a lady of  
prominence near Franklin, Ga.,  
this week while the lady and her  
children were alone and escaped.

In Cario, Ga., a policeman, a  
citizen and a marshal were the vic-  
tim of a negro desperado's gun  
one day last week who then made  
his escape. Marshal Godwin is  
dead.

Miners Notes.

On Monday Andrew Jackson, a

negro man, robbed a negro woman  
of \$225 in Atlanta and then ran  
into a saloon and was captured by  
negroes. A colored outfit alto-  
gether.

In the production of gold for

1891 the report shows that Geor-

gia led the northern states. The

United States produced 3,895,506

ounces and the gold production of

Georgia is valued at \$124,500.

A five cent toy pistol in the

hands of a little boy, on Thursday  
afternoon of last week, resulted in

Tom Clark, colored, residing  
down at the four mile post, on the

auraria road, losing his house  
and contents amounting to four

hundred dollars. Tom and his

wife were at town on business  
and no one left at home except two  
small children. These children

got to playing with a toy pistol,  
bursting matches, when a piece

came in contact with some straw  
and the above is the result. They

were too small to put it out and  
ran half a mile to the school house

but when aid came it was too late.

Tom kept a few goods for sale

and all were lost except three or

four sacks of flour, taken out by

some one passing along the road.

The heat was so intense that no

one could travel the public road

for some time. Tom is one of the

most industrious negroes in the

county and everybody sympathizes

with him.

A negro was tied to a log and

shot to death near Raleigh, N. C.,

the other day for assaulting Mrs.

Will Smith.

DAHLONEGA, GA.

# THE NUGGET

DAHLONEGA, AUGUST 29, 1902.

Jackson Howell, of this county, was bound over last Tuesday by Commissioner Baker for blockade.

The household of Mr. Robt. Parrish was made sad last Monday morning by the death of his bright eyed little boy, one year of age.

We regret to learn that Mrs. F. M. Williams, of Two Run, Ga., who has been in bad health for some time, had to take her bed last week.

Miss Mary Lou and Frank Baker, Jr., daughter and son of Mr. Frank Baker of Atlanta, are spending a short while with relatives in Dahlonega.

Several of the citizens of Dahlonega spent last Sunday up at Porter. This is such a pleasant resort that even the home people enjoy going there.

Mr. James Elkins, of this county, is one eyed and he married a one eyed lady, and they possess a mule and horse both one eyed, so we are informed.

We understand that work will be resumed on the Brainerd Patch ditch next Monday week, and then all idle hands will be accommodated with a job of work.

The furniture for the Girl's dormitory is about all here and in position, and everything about the premises, both out and inside, presents a neat, clean appearance.

Don't get impatient about the railroad. Give the promoters time. Such enterprises can't be put through in a week, nor in a month. It's coming and don't you forget it.

Last Monday, while working in the mines down at the Rutherford, Mr. C. W. McAfee discovered a big magnet, one that didn't please him very well. It was five feet long and had several rattles and a button.

For several days this week not a single cabbage could be bought in Dahlonega, although the mountains are full of them. Not many days ago they got so plentiful and cheap here, farmers could not afford to haul them to market.

Bear in mind that the fall session of the Dahlonega public school commences next Tuesday, and all parents anticipating patronizing it should send their children on the opening day, in order that they may get an even start. This is very important.

Camp meeting convenes at Lumpkin next Sunday, but we hear of but few persons from this place who expect to attend. Some years ago when Lumpkin camp meeting came off nearly everybody in town went, that could get off, but now it is different.

Photographer Bruce went up last Sunday and took several views of the thirty one persons baptized at Oak Grove, and will finish up a lot of them for sale to those wanting to see a picture of the biggest baptizing that has taken place in this county for many years.

When bids were put in for the building of the curb around the public well at the school house, the lumber furnished, they were from \$10 up to \$30. This shows the difference of opinion about work, and demonstrates as well that it is best to let out such work by contract.

Messrs. Sharp and West, of the Bell Telephone Co., the former from Tennessee and the latter from Atlanta, have been here this week negotiating with the managers of the Gainesville & Dahlonega Telephone Co., for its line of twenty-five miles running from this place to Gainesville. No doubt the trade will take place as the price has been agreed upon, so we are informed. Then we will have an up to date system in every respect.

Gen. Warner returned from the east last Sunday, where he had been on business for a few days.

Dr. Smith, of New Bridge, Ga., has been very sick for two or three weeks, but we are glad to state that he is improving some now.

Mr. J. E. McKee, who is moving his business to Dawson county, will not carry his family until his children complete their education.

Mr. Floyd Carroll, of White county, who married Miss Liddle Glass, on Wednesday of last week, paid relatives in Dahlonega a visit last Saturday.

Mr. Maxwell is now engaged in writing a book, the title of which will be "A Trip Down The Mississippi." The book will no doubt be very interesting, as the gentleman is a good writer and well educated.

On last Sunday, at the residence of Mr. W. H. G. Tate, Miss Oma Howard and Mr. Will S. Stewart, better known here as Mr. Will Griffin, were united in the bonds of matrimony by Rev. W. H. McAfee.

Remember that if your prospects you cannot but prosper with it, and if it goes backward it will involve you as everyone in it, in proportion to the amount of interest you have in it. Then pay forward your best endeavors for its prosperity.

The Gainesville & Dahlonega Electric Company is now engaged in hauling machinery out to the Dunlap Shoals on the Chattahoochee river, so as to begin the building of its big dam to furnish electric power for various purposes.

Some of the boys who started to Alabama last week to work in the iron mines returned after getting as far as Gainesville. Here they met a Lumpkin county laborer on his way home shaking with the chills, and they decided that they preferred to remain here, where it is healthy all the year round.

On Friday of last week a good rain visited the lower part of the county but we didn't get a drop here. The little rains we have had during the past month have been local and generally very light at that. There are hundred of acres of up land in this country that will not produce two bushels of corn to the acre. The stalks are white and about dead.

The business man who wished his business to grow must keep it before the people. The most approved way of keeping it before the public is in the newspaper. The newspaper is your introductory salesman; it talks to the prospective customer about your store and goods in their homes, and they are told what you have in stock, truthfully remarks an exchange.

We understand that one of the greatest revivals in the history of Yahoolea church has been in progress at that place for a number of days, Rev. Mr. Ward being the leading minister of the occasion, who has succeeded in getting some of the most wicked boys of the neighborhood to take an interest in the meeting, many of whom have said by their actions that they mean to live a different life.

Mr. J. E. McGee, of this place, received the sad intelligence last Monday of the death of his brother, Mr. John McFee, which occurred that morning in Union county.

At one time, not long since, the deceased served as school commissioner of Lumpkin county; was admitted to the bar, and well known to the people of this county. For some time, until recently, he had been making Tennessee his home but his wife's health was so bad that he decided to return to his old home in Union and had only been there but a short time when he was taken sick with typhoid fever and lingered until he was relieved of all suffering by the cold hand of death. He was a member of the Masonic fraternity and a number of members of this order went over to pay their respects to the departed brother, by burying him with the honors of Masonry.

Mr. J. A. Howard made a trip over to Blue Ridge, Ga., this week.

A little child of Mr. James W. Huff died a few miles from Dahlonega last Saturday morning.

Miss Lou Mincey died of typhoid fever one day last week, at her home in Nimblewill district.

The baptism of the fifteen parties who joined Nimblewill church recently, will be baptized on the 5th Sunday in September.

During the meeting at Philippi church, in this county, seventeen persons joined the church and will be baptized on the second Sunday in next month.

Quite a number of visitors from Porter Springs spent last Saturday in Dahlonega. They all like the place and some of them may spend next summer in Dahlonega.

From a letter from Alabama last week we noticed that Fred Hamilton was killed near Birmingham, in the mines on the 27th of May. Fred used to live in White county and is well known here.

This office has been turning out some very nice and difficult job work during the past few days. Last week we did a job which could not be done this side of Atlanta, and is not attempted at but one house there, which shows what can be done in the city of the mountains, especially at the Nugget office.

Luther Walker, who has been at work out at McKays, Tenn., was brought to his home in this county last Saturday sick with typhoid fever. He stated that there are numbers of cases of fever in that section and several persons dying. Some six or eight persons were buried at that place the day before he left.

Persons will find it to their interest very much to remember that a city ordinance does not even exempt sellers being out later than 11 o'clock at night and this is too late, unless the musicians stay sober and furnish better music. To be woken up at a late hour by an old banjo, in the hands of a drunken negro, is not very pleasant.

The other night during a revival up in the country, two young ladies, while shouting, grabbed a young man around the neck and gave him an old time hug, telling him what the Lord had done for them and what He would do for him if he would make a move in the right direction. From that time on, every young man in the country for miles around, attended services till the meeting closed but none of them got hugs and they must settle here, this being their homes.

As stated elsewhere, Will Ward was fined and sentenced to work 30 days on the streets last week. He made bond to keep out of the lock up until the work could be performed and was to have commenced it last Monday. But on that day he came not. The next morning he appeared and after working two or three hours stepped off to get some water and never returned, causing his bondsman to feel a little angry and restless.

Mr. J. B. Duckett, of Willow Gap, aged 65 in November, was in the city last Tuesday hunting a jack screw for the purpose of doing some work on his house. He is very stout and able to do all kinds of hard labor most. But this is not all. His father, Mr. Hiram Duckett, was 90 in February, and he cleaned off his turnip patch and does many other things about his premises, and steps about much faster than many young men of to-day.

We saw Mr. E. Carroll jumped up last Friday and popped his feet together twice before they touched the floor. He is 60 years of age, and this act alone shows that there is "life in the old man yet," and may prove beneficial to Judge Huff to the tune of \$1.50.

Some time last year an ordinance was passed here preventing cattle from running at large after night, causing it to be very inconvenient for our citizens owning cows, to sit up and watch until they came in from the woods in the summer time, and but little has been done in this direction for we saw nine out on the streets last Friday morning. It was just passed to please some old fogies who didn't own a cow himself and cared not whether any one else did or not. All such "foolish" ordinances should be repealed.

Mr. S. L. Prater's two daughters, Miss Nellie and Miss Lillie, have been up to White county visiting their brother Guy, for several days. They will now attend Lumpkin camp meeting, Miss Nellie, the oldest daughter, will then return to the Deaf and Mute school at Cave Springs, Ga., where she has been attending for the past six years. It is remarkable how she can read and write, not to hear any. She went deaf at two years of age from scrofula in her head. She is one of the finest looking young ladies in Dahlonega.

Nearly everybody went out to the baptizing up at Oak Grove last Sunday.

Judge Huff has been sick a day or two but is improving and will be all right again.

A good farm to rent for cash one and a half miles from town, Apply to FRANK L. REESE.

Mrs. S. L. Prater has our thanks for box of nice grapes of two varieties, sent us a few days ago.

Don't be guilty of giving us your "thanky jobs" and some one else your paying ones.

Churches can't be expected to prosper when some of its members are allowed to have a wife and a sweetheart too. And some of its female members ditto.

When you get to shooting during these big revivals be sure that you are not owing the printer anything. A person who tries to shun a printer's debt can't get to heaven.

A nice delicious water melon given to the Nugget office by Mr. Dan Davis on Thursday of last week, caused every one in it to smile and think what a clever gentleman he is.

Instead of renting our house to the Nugget office, we decided to use one room for a private office, where yo editor is ready to meet his friends at any time. Call down.

Some of our leading republicans and democrats have been sitting down and drinking together this week, but when the election rolls round they will occupy different boxes.

The other Sunday while returning from Yahoolea church Maston Elliott killed a rattle snake five feet long. Just one month previous a little girl of Mr. Allen Anderson killed one near the same place.

Mr. Breymann, of Toledo, Ohio, arrived in the city latter part of last week. Wish he could have brought rain with him so the mining operations could be started up again, before the machinery all gets rusty.

Fall and Winter made to order mensuits delivered and guaranteed to fit \$8.50 to \$35.00. This is the first time we have been able to offer first class work at this low figure.

— B. R. MEADERS & SONS

Several colored persons who went off to Pickens county a short time ago, were made to pay their street taxes upon their return last week. Some claimed that they had paid theirs but the mayor held that they must settle here, this being their homes.

We saw Mr. E. Carroll jump up last Friday and popped his feet together twice before they touched the floor. He is 60 years of age, and this act alone shows that there is "life in the old man yet," and may prove beneficial to Judge Huff to the tune of \$1.50.

Some time last year an ordinance was passed here preventing cattle from running at large after night, causing it to be very inconvenient for our citizens owning cows, to sit up and watch until they came in from the woods in the summer time, and but little has been done in this direction for we saw nine out on the streets last Friday morning. It was just passed to please some old fogies who didn't own a cow himself and cared not whether any one else did or not. All such "foolish" ordinances should be repealed.

Mr. S. L. Prater's two daughters, Miss Nellie and Miss Lillie, have been up to White county visiting their brother Guy, for several days. They will now attend Lumpkin camp meeting, Miss Nellie, the oldest daughter, will then return to the Deaf and Mute school at Cave Springs, Ga., where she has been attending for the past six years. It is remarkable how she can read and write, not to hear any. She went deaf at two years of age from scrofula in her head. She is one of the finest looking young ladies in Dahlonega.

We understand that Mr. Breymann says that he is going to try one more effort to see if he can make his mine pay here, if not he will quit the business. He is now leasing out most any of the Consolidated, Standard or Syndicate properties to reliable persons. This is a move in the right direction for they have more property than they can work on a large scale unless more power was obtained. Some of our northern friends have not been satisfied with clearing \$15 per day. This is very good money and if they follow the business they will be glad to get this much every day.

The painter's brush has caused Autafia to have a nice appearance.

Prof. J. W. Boyd went out last Monday to Cavender's Creek with his surveying instrument to run more ditches.

Mr. Joe Ricketts and his wife and son who have had the typhoid fever out near the cemetery for some time, are improving and if they get no back set will recover.

Last Monday, while some hands were at work in the cemetery they found and killed a two foot rattlesnake of the yellow variety. It doubtless has a mate out there but we are not going to look for it.

There is said to be both white and black blind tigers in Dahlonega. Parties in charge should take warning, for a man in this business is sure to be given away, as there are but few men who drink liquor to excess that keep secrets.

Ned Moose, after having the typhoid fever over at McCays, Tenn., for about two weeks, was brought in by Dr. Stow last Tuesday, and he is now at his father's house, down at the foot of Brick Yard Hill, getting along as well as could be expected.

The large sums of money being made in many portions of Georgia by those having peach orchards should encourage our Lumpkin county friends and cause them to begin business in this direction. This is a fine section for peaches and no time should be lost by land owners wanting to make money.

The other Sunday while returning from Yahoolea church Maston Elliott killed a rattle snake five feet long. Just one month previous a little girl of Mr. Allen Anderson killed one near the same place.

Mr. C. M. McAfee died on Tuesday last in Gainesville at six o'clock p.m., of typhoid fever after an illness of twelve days. The deceased was married in Lumpkin county and is a brother of Hon. W. H. McAfee, of Dahlonega. Charlie has many friends in this and adjoining counties who will regret to learn of his sad demise.

As stated elsewhere, Will Ward was fined and sentenced to work 30 days on the streets last week. He made bond to keep out of the lock up until the work could be performed and was to have commenced it last Monday. But on that day he came not. The next morning he appeared and after working two or three hours stepped off to get some water and never returned, causing his bondsman to feel a little angry and restless.

Mr. J. B. Duckett, of Willow Gap, aged 65 in November, was in the city last Tuesday hunting a jack screw for the purpose of doing some work on his house. He is very stout and able to do all kinds of hard labor most. But this is not all. His father, Mr. Hiram Duckett, was 90 in February, and he cleaned off his turnip patch and does many other things about his premises, and steps about much faster than many young men of to-day.

It is said that a certain married woman, of Dahlonega, is going down to the Lumpkin camp meeting for no other purpose than to see one of her old chums. This proves that the devil takes an active part at camp meetings and cannot be driven or kept away.

While Mr. George Adams, of Chestnut district, was in town last Tuesday he showed us some old stamps, and home made envelopes that were made during the war and two "shin plasters" of 25 cents each bearing the date of 1863. It is a rare thing to see any of this kind of money now, and is an curiosity to those who have grown up since the war.

Jones' Creek district comes to the front with a little sensational matter this week. On the first Sunday in this month Jerry Black lost a sheep. Not long since it leaked out that Green Marlow was seen with it. He was accused about it and said that he got the sheep from William Rider. Last week a warrant was sworn out for Rider and put into the hands of an officer for execution, which was done, and the defendant said that he could prove where he was on that day. Marlow was the only witness and when he saw them coming with Rider, he left out and has not been heard of since. Rider was acquitted and the other man is wanted now.

And it's raining yet.

Mr. John Holcomb leaves for his home to-day.

Presbyterian services only on 2nd and 4th Sundays hereafter, Sunday School at usual hour.

At this writing, (Wednesday), it is cloudy and raining and looks as if we would have a wet season of several days.

Our old friend and patron Mr. J. J. Hulsey, of Marble Hill, Ga., dropped in to see us while in Dahlonega last Wednesday.

Mr. G. M. D. Lance, of this county, and Miss Hannah Thompson, of Union county, were wedded a few days ago.

Our summer visitors will soon all return home. We wish them safe trip and trust that they will all live to come back next season and bring others.

Dr. W. W. McAfee, who has been spending some weeks in Dahlonega with his parents, together with his family, will return to Atlanta next Monday.

Notwithstanding people have been grumbling about dull times, we have kept our job presses moving pretty regular this month and received several new subscribers.

There was one lady baptized at Oak Grove last Sunday who was never at a baptizing nor a burying in her life, so we are told, and yet she is married and has a family.

Some fodder pulling commenced in this section first of the week. There will not be a very large yield of fodder this year on account of the unusual drought we have experienced this summer.

Mr. Sharp, of Chattanooga, who was in Dahlonega two or three days recently, is interested in the Jumbo gold mine a few miles above Dahlonega, which after being prospected, has been pronounced good.

Rev. D. J. Blackwell brought down a fine watermelon to the Nugget office last Tuesday and treated the whole force, from the devil on up. He is a fine gentleman, good preacher and every body likes him.

Mr. and Mrs. Hager, of New Bridge, Ga., were registered at Hall's Villa last Tuesday, who spent a few hours in the city. Mr. Hager is the successful manager of the dredge boat down at that place in the Chattooga river.

Mr. W. R. Hightower, of Chattanooga, Tenn., and Miss Hosh, of Gainesville, will be married in that city on the 16th of September. Mr. Hightower used to reside in Dahlonega and is a son of Mr. W. J. Hightower, yet living here.

It is said that a certain married woman, of Dahlonega, is going down to the Lumpkin camp meeting for no other purpose than to see one of her old chums. This proves that the devil takes an active part at camp meetings and cannot be driven or kept away.

Marlow was the only witness and when he saw them coming with Rider, he left out and has not been heard of since. Rider was acquitted and the other man is wanted now.

#### FOR SHERIFF.

To the Voters:

At the solicitation of many citizens I now announce my name as an independent candidate for sheriff of Lumpkin county, promising if elected, to fill the position to the best of my ability.

J. W. STANCL.

#### BARBER SHOP.

**W**HEN wanting a nice clean shave, hair cut or shampoo you will get it at the Barber Shop, First class barber shop in every respect next door to McGee's store on main street where they will be found ready to wait on you at any time.

#### ADMINISTRATOR'S SALE.

Georgia, Lumpkin county.

By virtue of an order of the County Orator and said county granted August 4th, 1902, will be sold at public outcry on the first Tuesday in September, 1902, at the court house in Lumpkin county, Georgia, as well as the usual hours of sale, the following real estate situated in Lumpkin county, to-wit: The farming interest in the south-west half of lot of land No. 395, the farming interest in lot of land No. 395, the farming interest in lot of land No. 377, All of lot of land No. 377 (except) above acre or less lying near the north-east corner of said lot which is the family burial ground and known as the Arrendale Grove (Yard). The North-half of lot of land No. 394, All of lot of land No. 325, all of lot of land number 326, all of lot of land No. 307, all of lot of land No. 305, the south-half of lot of land No. 304. All of the land described as the south-half of lot of land being in the 12th District and 1st Section of Lumpkin county, Georgia. Also the undivided one-fourth of the mineral interest in lot of land No. 474, lying in section in the 12th District and 1st Section North-half of Lumpkin county, Georgia. Terms of sale cash.

Tues. 4th day of August, 1902.

A. M. ARRENDALE,  
Administrator.

#### Nobility Recommends Nervine.

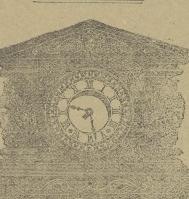

The above portrait is that of Countess Mogelstad, of Chicago, Ill., whose gratitude for the benefit received from the use of Dr. Miles' Nervine prompted her to make this statement:

"It affords me great pleasure to add my name to those of the many testimonials of Dr. Miles' Nervine. Although I am past 80 years of age I find it a great relief to have a good night's sleep, nerves and muscles restful sleep. I never feel fatigued without a good night's sleep. I am now in my 80th year."

CHARITTA MARIE  
Countess Mogelstad.

Dr. Miles' Nervine Co., Elkhart, Ind.

Peace Warrants,

Options,

Power of Attorney,

Witness Summons,

J. P. Summons,

Justice's Court Fifas,

Forthcoming Bonds,

Constable's advertisements,

Bonds for Title,

Affidavit & Bond for Garnishment

Administrator's Deeds

and Attachments.

Money for Old U.S. and Confederate Stamps. Look over your letter bearing stamps and see if you have any number of them. Look around in old boxes, desks, and trunks in the garret and other places, you may find a few. Write as a description of the stamps, or name to us and we will give you one or two dollars for each stamp. If you have any money, we will give you a cash offer, if stamps have no value and if they are not we will return them. Don't take the stamps from the envelopes, but send the envelopes with stamps attached.

Georgia, Lumpkin County.

I will be sold before the court house door of the county of Lumpkin, the 1st day of September, 1902, with the legal hours of sale to the highest bidder for cash the following property to-wit:

The undivided one-fourth of the farming interest in and to lot of land number 475, in the 15th district and 1st section of Lumpkin county, Georgia. Located by virtue of an abstract of title, given to me from the Justice Court of the 15th District, G. M. C., of said county, in favor of D. M. Caldwell, now deceased, and Andrew Hartfield, now deceased, and to me by W. C. Christy, L. C. This August 1st, 1902.

#### SHERIFF'S SALE.

Georgia, Lumpkin County.

I will be sold before the court house door of the county of Lumpkin, the 1st day of September, 1902, with the legal hours of sale to the highest bidder for cash the following property to-wit:

The undivided one-fourth of the farming interest in and to lot of land number 475, in the 15th district and 1st section of Lumpkin county, Georgia. Caldwell, now deceased, and Andrew Hartfield, now deceased, and to me by W. C. Christy, L. C. This August 1st, 1902.

#### Too Much Trouble Entailed.

A country woman entered a general store in Towanda, this State, and exchanged a pair of roll butter for groceries and household articles, including a large box of matches, says the Philadelphia Times. The following day she returned, and putting the matches on the counter, complained that they were no good—she couldn't strike them.

"Quer!" commented the store-keeper. "We use 'em altogether, and have no trouble!"

Then he took three or four from the box, scratched them one after another on his trousers, easily produced a light, and then assured her the matches were all right.

"Mebbe they be," she replied; "but I have too much to do to walk three miles here and back whenever I want a light for the sake of striking the matches on your trousers!"

The Singular Case of Mrs. Jenks.

Mrs. Mahala Jenks, an estimable married woman residing in Neosho county, Kansas, awoke from an after-dinner nap one day with a loud shriek, says the Chicago Tribune.

She had dreamed that something terrible had just happened, or was about to happen, to her father, a farmer in Illinois.

So strong was the impression upon her that she looked at the clock and noted the hour, firmly convinced that her dream was a reality.

Two days afterward Mrs. Jenks received a letter from her father, written on the day when she had her dream, conveying the news that everybody in the family was well and he hoped these few lines would find her enjoying the same great blessing.

#### Depends Upon The Man.

The quality and excellence of a paper depend upon the character and ability of the man who conducts it. Such is the opinion of H. C. Miller, of the St. Peter (Minn.) Free Press. If he is a man fit to be a country editor at all, says Mr. Miller, and gives his best efforts to the enterprise, is reliable in all things, never loses sight of what is best for the interest of his community, always aims to be generous, strives to build up rather than to destroy, leads, not follows, and conscientiously supports the highest ideals, he is sure to earn the confidence and respect of the public, and his paper will become a power in the community.

Pierpont Morgan is magnificent in millions, but, in his office it is said that one clerk, when not doing messenger service, is engaged in slicing off the flap side of all used envelopes and preserving the fronts in pads for scribbling paper. The mail of such a house is enormous and the saving thus effected is not inconsiderable. The saving of envelopes and newspaper wrappers is gradually being appreciated in other large banking houses.

At Evansville, Indiana, the other day two likely young men asked the Rev. Mr. Brown for the hands of his two daughters, Maud and Myrtle. The Rev. gentleman said he would have to pray over the matter before giving his reply. He went off to his closet. While he was praying the boys and girls skipped off and got married. However, it was all right, since the Rev. Mr. Brown said the Lord was willing.

That sparrows are not the pests they are painted has just been proved by the well-known English naturalist, Brady, who observed that a pair of sparrows brought to the nests of their youngsters not less than 3,200 insects during a single week. In the course of one summer, Brady asserts, a pair of sparrows destroy at least 50,000 insects.

The estate of the late Hemphill, of Atlanta, is said to be worth \$200,000.

#### As the Woman Judged.

It was to be the humblest of wedding trips—evidently just a ride on the trolley from the tenement that had been the old home to the tenement that would be the new one. When the parting between mother and daughter seemed imminent a mercifully inclined truck blocked the car and gave them a few minutes more together. The daughter had made concessions to the hand of her adoption and wore a hat, but the mother clung to the kerchief of her native Italy. The truck showed signs of resuming the journey. The motorman clanged the bell continually, and the mother, recognizing that the time had come, walked to the side of the car with the bride, kissed her passionately and addressed a few words to the bridegroom. "She is saying that if he is not good to her daughter, she will stab him," said the passenger who understood Italian. "Oh, these dago women are terrible," said the woman covered with paste jewelry. "They have no feelings at all."—New York Sun.

#### What He Wanted to Say.

A few days ago Mr. Taylor was absent from his drug store for a few minutes and left his wife in charge. A large Norwegian who spoke English with difficulty entered and said:

"Hi owe do firm 10 cents."

"Very well," replied Mrs. Taylor, "just pay it to me and it will be all right."

The Norwegian made no attempt to produce the coin but gazed steadily at Mrs. Taylor and repeated.

"Hi owe do firm 10 cents."

"Yes, I heard you say that before. Now, if you are afraid I will give you a receipt for it."

In astonishment the man Norway looked at her and walked away without a word. Pretty soon he returned with a countryman whose command of English is a little better and who interjected remark to Mrs. Taylor by explaining. "He wants 10 cents' worth of iodiform"—Frankfort (Kan.) Review.

#### Sway of The Rural Paper.

It is the opinion of George W. Martin, Secretary of the Kansas Historical Society, that the country newspaper publisher is the most important of all the factors at the beginning of things. It is he who gets near the home, who is known and read in every household of his bailiwick. Every line in a country newspaper is read by the grown folks and children alike in each household where it enters, and is not merely skimmed over, or only headlines read, as in the case with the city papers. Hence there is no over-estimating the sway of the rural newspaper.

An ingenious man has at last devised a way to make silk from a spider's web. The spider whose product is large one in Madagascar, and the discoverer of the method of using it is a Catholic missionary there. Some of the silk woven is on the market. It is more beautiful than ordinary silk, having a glowing, old-gold lustre in its natural stage, and is quite expensive. Under the microscope, the separate threads look more like fine gold wires than fibres.

A number of men have at last devised a way to make silk from a spider's web. The spider whose product is large one in Madagascar, and the discoverer of the method of using it is a Catholic missionary there. Some of the silk woven is on the market. It is more beautiful than ordinary silk, having a glowing, old-gold lustre in its natural stage, and is quite expensive. Under the microscope, the separate threads look more like fine gold wires than fibres.

"What is the pedigree of your calf?" asked a would-be buyer of a farmer. "All I know is that his father gored a book agent to death; tossed a justice of the peace on top of a barn and stood a lightning rod man on his head in a fence corner. His mother chased a female lecturer two miles one day. If that isn't pedigree enough to ask \$84 on you needn't take him."

The laziest man on record has been discovered at Fitzgerald in this state. After sleeping five days continuously he blew out his brains because some one interfered with his nap, states the Monroe Advertiser. There are one or two in Dahlonega that ought to shoot themselves.

#### FOR HARNESS.

Send us your Mexican Mustang Liniment and we will be pleased to see it quickly by mail.

#### It's this way:

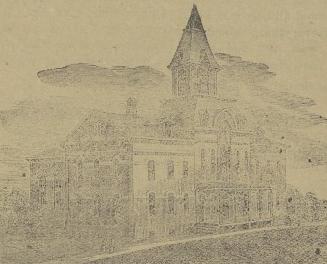

You can burn yourself with Fire, with Powder, etc., or you can scald yourself with Steam or Hot Water, but there is only one proper way to cure a burn or scald and that is by using

#### Mexican Mustang Liniment.

It gives immediate relief. Get a piece of soft old linen cloth, saturate it with this liniment and bind loosely upon the wound. You can have no adequate idea what an excellent remedy this is for a burn until you have tried it.

#### A FOWL TIP.

If you have been afflicted with Pimp or any other bodily disease use Mexican Mustang Liniment. It will cure a scorpion sting in a minute.

#### N. G. A. College, Dahlonega, Ga.

In response to a number of recent enquiries from parties asking;

"Where can I place my son (or daughter) so that he (or she) may receive a good education and yet without any great expense?"

The United States Trade Reports, in a recent issue of that widely circulated paper says:

"Realizing the importance of the subject and the confidence that would be reposed in our answer and recommendation we have made a careful investigation of the standing and character of all the leading educational institutions and, with due respect to many that offer good advantages, we must concede our preference for the North Georgia Agricultural College, at Dahlonega, Ga. This college is conducted on the co-education of sexes plan, and offers exceptional advantages, and at prices especially arranged for students of limited means.

"The courses of study are broad and liberal and embrace every requirement of modern education, refinement and culture. The faculty is composed of instructors especially qualified in theory and practice to teach, and one of the features of the work in this college is the attention bestowed upon the individual education of the pupils.

"Buildings occupied are large and commodious and every facility and convenience is provided for the pupils. The living-rooms are nearly furnished, while the table menu is selected and prepared from the best of country produce.

"The laboratories, library and recitation rooms are provided with every essential requisite to the proper study and explanations of the lessons taught. Military discipline prevails at the college, and its entire tone and influence, moral, social, religious, educational and physical is all that could be asked by any parent solicitous for the welfare of his child, while the climate in which Dahlonega, Ga., is situated is always of a character that is invigorating and conducive to the best degrees.

"Therefore in view of these carefully ascertained facts we have not the slightest hesitating in recommending the North Georgia Agricultural College to those who have requested this information, to whom we would respectfully suggest that for further and detailed information regarding this model college and its most admirable system and method of education, they write its President, Joseph S. Stewart, A. M."

"The North Georgia Agricultural College is prosperous, and is doing a work unsurpassed perhaps in importance and value by any other institution of learning in the South."—From Governor Candler's Message to General Assembly.

"The North Georgia Agricultural College is prosperous, and is doing a work unsurpassed perhaps in importance and value by any other institution of learning in the South."—From Governor Candler's Message to General Assembly.
